

CIC Helpdesk User Guide

Url: <https://cichelpdesk.iitkgp.ac.in>

Raising and tracking tickets — a step-by-step walkthrough

This guide covers two kinds of requests:

- **A. General Ticket** — for any issue or request that does not have a dedicated form (e.g. “my network port is not working”).
- **B. Service Request (Category form)** — for specific services that need an official, signed and stamped form. You print the form, get it signed & stamped, then upload it back into the ticket.

1. Before You Begin

You need an account on the CIC Helpdesk portal and a supported web browser (Chrome, Edge, or Firefox — latest version).

There are two types of users, and they log in with different credentials:

User type	What to use as User ID	Password
ERP User	Employee Code / Student Roll No	Campus Wi-Fi password
Non-ERP User (external / guest / vendor account / others)	Registered email address	Portal password
	Don't have an account? Email your CIC Helpdesk account creation request to helpdesk@cc.iitkgp.ac.in .	

Note - For any login related issue, you may drop an email to helpdesk@cc.iitkgp.ac.in.

2. Logging In

Step 1. Open the CIC website (<https://cic.iitkgp.ac.in>) in your browser and click on Raise a Ticket button. You will be redirected to the CIC Helpdesk portal or you can directly go to CIC Helpdesk portal (<https://cichelpdesk.iitkgp.ac.in>).

The screenshot shows the official website of the Computer & Informatics Center (CIC) at IIT Kharagpur. The top navigation bar includes links to the Institute Website, Webmail for Faculty and Staff, ERP, CIC Software Repository (Intranet), and a highlighted 'Raise a Ticket' button. The main header features the CIC logo and a 75th anniversary emblem. The central banner area is titled 'Computer & Informatics Center' and describes its mission to maintain central computing, networking, and software infrastructure. A 'FOCUS AREA' section lists four key services: 01 Central computing support for academic laboratories and workstation environments; 02 Institute-wide wired and wireless networking, authentication, and internet access services; 03 Shared digital systems including mail, software enablement, private cloud, VPN, and network time services; and 04 Operational reliability, support workflows, and policy-backed campus IT stewardship. The footer highlights four key metrics: 20,000+ Campus Users (students, faculty, staff, and researchers), 4500+ Wi-Fi Access Points (distributed across academic and residential spaces), 550+ PC Lab Nodes (in six PC Labs), and 100+ Servers (supporting services, compute, and operations).

Step 2. A Login screen will appear. The left panel reminds you which credentials to use.

Login Information

- ERP Users: Use your standard Campus Wi-Fi ID and password.
- Non-ERP Users: Use your registered email address and portal password.

Need an account?
Email your request to: helpdesk@cic.kgpa.ac.in

Service Cards

General Ticket

- **Service cards (top)** — each card is a specific service with a Request Service button (e.g. VPN, PC Lab Booking, IP Allocation). Use these when your need matches a card.
- **Create General Ticket button (bottom)** — use this for all other type of CIC related issue or request.

Note: If you can find a card that describes exactly what you need, use it (Walkthrough B). Otherwise, create a General Ticket (Walkthrough A).

4. Walkthrough A — Creating a General Ticket

Use this for any CIC related issue or request.

Step 1. On the Service Catalogue, scroll to the bottom and click **Create General Ticket**.

The screenshot shows the 'Service Catalogue' page in the CIC Helpdesk system. The page title is 'Service Catalogue' with a subtitle 'Select a service to get started'. Below the title, there is a section 'FORMS / CHANGE REQUESTS' containing a grid of service cards. Each card has a title, a brief description, and a 'Request Service' button. The services listed are: Internet Access For Events, Internet Access For Guests, Internet Access For Officials, Allocation of Static (Private) IP, VPN from Outside IIT KGP, Booking of PC Labs, Remote access to outside IITKGP, Academic Web Hosting, Employee Web Hosting, Meghamala VM Request, and LAN Connection / Wifi Request. At the bottom of the page, there is a message: 'Not able to find the specific request above? Please create a general ticket.' Below this message is a button labeled '+ Create General Ticket' which is highlighted with a red rectangle. The left sidebar shows the 'CIC Helpdesk' logo, 'Request Service' link, and 'Ticket Listing' link. The bottom of the sidebar shows the user 'Test U' with email 'user1@cc.iitkgp.ac.in' and phone '123456789', and a 'Logout' link.

Step 2. The New Request form opens. Your contact details (name, email, phone) are already filled in from your account.

The screenshot shows the 'New Request - General' form in the CIC Helpdesk system. The form is titled 'New Request - General' and has a 'Cancel' button and a 'Create Request' button. The form is divided into three main sections: 'END USER CONTACT', 'PROBLEM DETAILS', and 'ATTACH DOCUMENTS'. The 'END USER CONTACT' section contains fields for 'NAME' (Test User), 'EMAIL' (user1@cc.iitkgp.ac.in), and 'MOBILE' (123456789). The 'PROBLEM DETAILS' section contains fields for 'ISSUE TITLE' and 'ISSUE DESCRIPTION'. The 'ATTACH DOCUMENTS' section contains a text area for 'ISSUE LOCATION / AREA' and a file upload area with a message 'Drag & drop files here, or browse' and 'Upload relevant documents, screenshots, or logs.' The left sidebar shows the 'CIC Helpdesk' logo, 'Request Service' link, and 'Ticket Listing' link. The bottom of the sidebar shows the user 'Test U' with email 'user1@cc.iitkgp.ac.in' and phone '123456789', and a 'Logout' link.

Step 3. Fill in the request details:

Under **End User Contact**, select:

- **My Self** — If you are raising the ticket for yourself. Your name, email and mobile are filled in automatically.
- **Someone Else** — If you are raising the ticket on behalf of someone else. Type the name, email and mobile of the referred person.

Field	What to enter
Issue Title	A short one-line summary (e.g. "Network port dead in Room 203").
Issue Description	Full details — what is happening, since when, any error messages.
Issue Location / Area	Where the issue is (building, room, department).

Step 4. (Optional) Under **Attach Documents**, drag and drop any photos, screenshots or documents that help explain the problem, or click browse to pick files.

Step 5. Click **Create Request**.

The screenshot shows the 'New Request - General' form in the Cic Helpdesk system. The form is divided into several sections: 'END USER CONTACT' with fields for Name, Email, and Mobile; 'PROBLEM DETAILS' with fields for Issue Title, Issue Description, and Issue Location / Area; and 'ATTACH DOCUMENTS' with a file upload area. A 'Create Request' button is highlighted in the top right corner.

Step 6. A success message appears confirming the ticket was raised.

The screenshot shows the Cic Helpdesk system displaying a success message 'Ticket Raised' overlaid on the ticket details page. The message states: 'Your ticket has been raised successfully. If you do not receive an update within 24 hours, please contact us at helpdesk@cc.ittkgp.ac.in.' The background shows the ticket details for '2026AUG20-0044: General'.

Step 7. Click OK and you are taken to your newly created ticket details page.

The screenshot shows a web browser window displaying the '2026AUG20-0044: General' ticket details page. The page is divided into several sections:

- PROBLEM DETAILS:** Includes fields for 'ISSUE TITLE' (Network port dead in Room 203), 'ISSUE DESCRIPTION' (Network port dead in Room 203), and 'ISSUE LOCATION / AREA' (CIC, Room no 203).
- DISCUSSION & FILES:** A section for 'Comments' and 'Attachments' with a text input field and a 'Post Message' button.
- TICKET METADATA:** A sidebar on the right containing 'USER CONTACT' (Self), 'CREATED BY' (Self), 'CREATED AT' (20-08-2026), 'TICKET STATUS' (Open), 'LAST UPDATED BY' (Self), and 'LAST UPDATED AT' (20-08-2026).
- ASSIGNMENT:** A section for 'OWNED BY' and 'CURRENT ASSIGNEES'.

The left sidebar shows navigation options like 'Request Service' and 'Ticket Listing'. The bottom of the page includes a 'Test UI' button and a 'Logout' link.

Congratulations!! Your General Ticket is submitted. You can see the ticket id at the top of ticket details page (for e.g., 2026AUG20-044). You will also receive a confirmation email with ticket details from noreply@cc.iitkgp.ac.in. Every time the ticket status changes, you also get an update email.

5. Walkthrough B — Creating a Service Request (Example: VPN from Outside IIT KGP)

Service Requests need an official signed and sealed form. For these, the portal collects your details as per service request requirement and generates a ready-to-print form. Please print the form, get it signed and sealed by the competent authority. Then scan the form and upload it into the ticket and submit — entirely online.

Important: The ticket is created straight away after saving the request, but it will not reach the CIC support queue until the signed form is uploaded to the ticket as instructed above.

We have used VPN Access from Outside IIT KGP as an example, but the steps are same for other service cards too (e.g.; Booking of PC Labs, Academic Web Hosting, etc.).

Step 1. On the Service Catalogue, find the **VPN from Outside IIT KGP** card and click on the **Request Service** button on the card.

The screenshot shows the 'Service Catalogue' page in the CIC Helpdesk system. The page displays a grid of service request cards under the heading 'FORMS / CHANGE REQUESTS'. The cards include:

- Internet Access For Events:** Provisioning of temporary internet access for events organized within the campus.
- Internet Access For Guests:** Provisioning of internet access for guests visiting the campus.
- Internet Access For Officials:** Provisioning of internet access for officials within the campus.
- Allocation of Static (Private) IP:** Allocation of static (private) IP addresses to users or systems.
- VPN from Outside IIT KGP:** Setting up VPN access for users outside IIT KGP. This card is highlighted with a red box.
- Booking of PC Labs:** Requestion for booking PC labs for programs/events organized on campus.
- Remote access to outside IITKGP:** Setting up remote access for users outside IIT KGP.
- Academic Web Hosting:** Provisioning of web hosting services for department/school/centre/section.
- Employee Web Hosting:** Hosting of a personal professional portfolio webpage for an employee under the IIT KGP domain.
- Meghamala VM Request:** Creation of Meghamala virtual machines for users.
- LAN Connection / Wifi Request:** Request a new wired LAN or Wifi connection/port for an Department / Section / Hall of Residence / Residential.

At the bottom of the page, there is a message: 'Not able to find the specific request above? Please create a general ticket.' and a button labeled '+ Create General Ticket'.

Step 2. The request form opens. Fill in all the required fields.

Under **End User Contact**, select:

- **My Self** — If you are raising the ticket for yourself. Your name, email and mobile are filled in automatically.
- **Someone Else** — If you are raising the ticket on behalf of someone else. Type the name, email and mobile of the referred person.

Step 3. Read the Terms & Conditions shown near the bottom, then tick *“I have read and agree to the above terms and conditions.”* (This is required — you cannot submit without agreeing.)

END USER CONTACT

Upload relevant documents, screenshots, or logs.

Step 8. Click **Submit Documents**.

The screenshot shows the CIC Helpdesk interface for ticket 2026AUG20-0045. The ticket title is "VPN from Outside IIT KGP". The left sidebar shows "Request Service" and "Ticket Listing". The main content area has tabs for "PROBLEM DETAILS", "TERMS & CONDITIONS", and "DISCUSSION & FILES". The "PROBLEM DETAILS" tab is active, showing fields for "DEPARTMENT/CENTRE/SCHOOL" (CIC), "DESIGNATION" (System Engineer), "EMPLOYEE ID" (12345), "VPN ID WILL BE USED BY" (Self), "START DATE" (20-08-2026), "END DATE" (21-09-2026), and "REASON FOR REQUEST" (Research Purpose). The "TERMS & CONDITIONS" tab shows a list of terms. The "DISCUSSION & FILES" tab shows a "Comments" section with a "Post Message" button. On the right, the "TICKET METADATA" section shows "USER CONTACT" (Self), "CREATED BY" (Self), "CREATED AT" (20-08-2026), "LAST UPDATED BY" (Self), "LAST UPDATED AT" (20-08-2026), "TICKET STATUS" (Document pending), and "UPLOAD SIGNED FORM" (Document pending). A red box highlights the "Submit Documents" button in the top right corner.

Note: If you click **Submit Documents** without uploading anything, you'll see a reminder to upload the signed copy and then click on Submit Documents button.

Step 9: After Submitting the signed copy, Ticket will move to Open state waiting to be picked by CIC support queue.

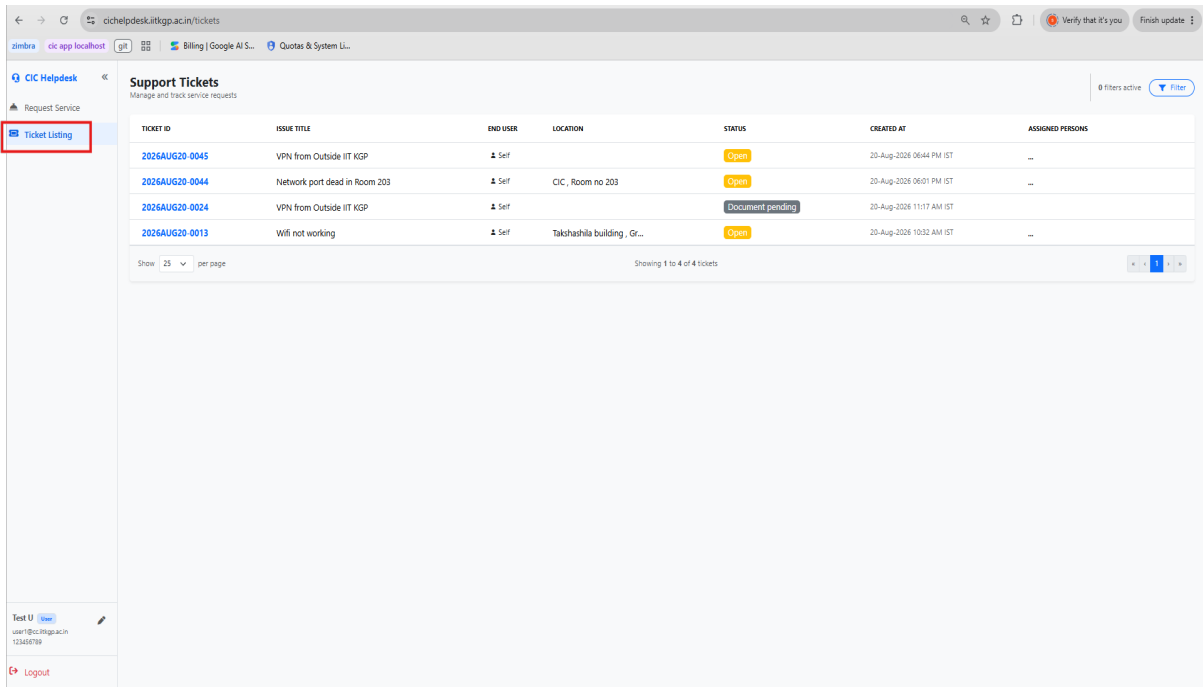

The screenshot shows the same CIC Helpdesk interface, but the ticket status has changed to "Open". The "TICKET STATUS" is now "Open" (highlighted in orange). The "TICKET METADATA" section shows "TICKET STATUS" (Open). A green notification banner at the top right says "Ticket has been updated successfully". The "DISCUSSION & FILES" tab now has an "Attachments" link. The "Post Message" button is still present.

Congratulations!! Your Service request is submitted. Once submitted, the ticket moves into CIC's support queue for processing. Every time the ticket status changes, you also get an update email.

Note: Need to reprint the form, or made a mistake? While the ticket is still in **Document Pending** status, open it, update the fields if needed and click **Update Request** to save the details, and use **Print Request** to regenerate the form — then re-upload the newly signed copy before clicking **Submit Documents**.

6. Viewing and Tracking Your Tickets

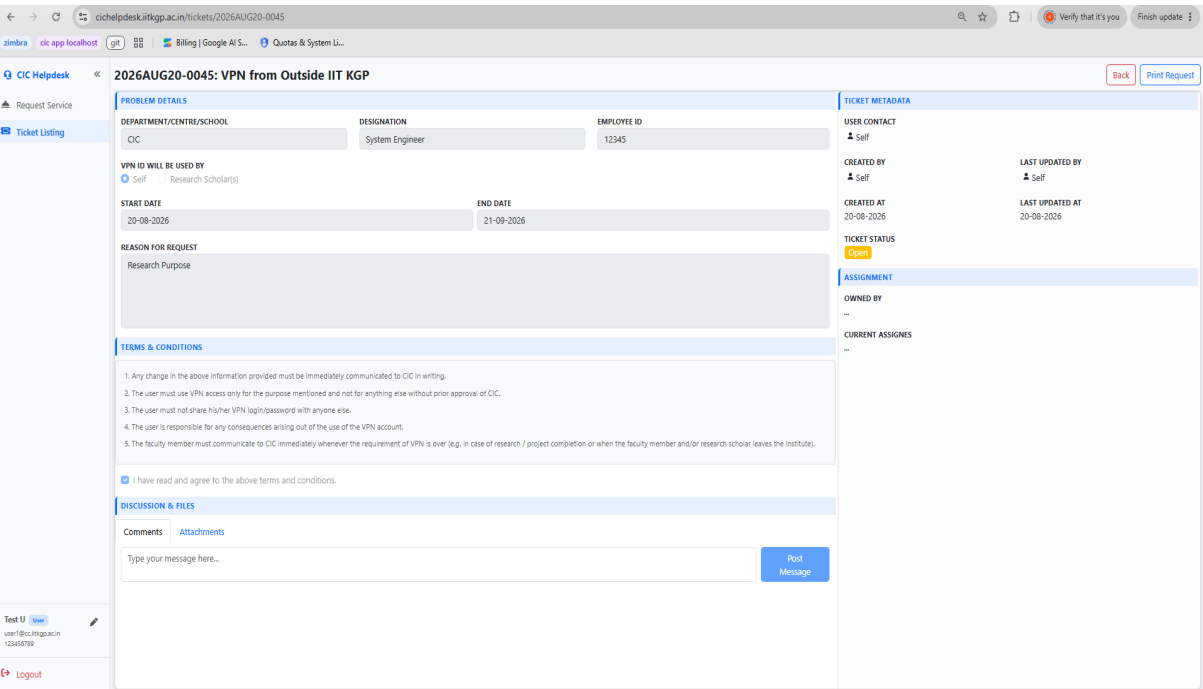

Step 1. Click **Ticket Listing** section in the sidebar to see the list of tickets you have raised.

The screenshot shows the 'Support Tickets' page in the CIC Helpdesk. The sidebar on the left has 'Ticket Listing' highlighted. The main content area displays a table of tickets with columns: TICKET ID, ISSUE TITLE, END USER, LOCATION, STATUS, CREATED AT, and ASSIGNED PERSONS. There are 4 tickets listed, with the first one being '2026AUG20-0045: VPN from Outside IIT KGP'. The status is 'Open'. The user is 'Self'. The location is 'CIC, Room no 203'. The created at date is '20-Aug-2026 06:44 PM IST'. The assigned persons are '...'. The table is paginated, showing 1 to 4 of 4 tickets.

TICKET ID	ISSUE TITLE	END USER	LOCATION	STATUS	CREATED AT	ASSIGNED PERSONS
2026AUG20-0045	VPN from Outside IIT KGP	Self		Open	20-Aug-2026 06:44 PM IST	...
2026AUG20-0044	Network port dead in Room 203	Self	CIC, Room no 203	Open	20-Aug-2026 06:01 PM IST	...
2026AUG20-0024	VPN from Outside IIT KGP	Self		Document pending	20-Aug-2026 11:17 AM IST	...
2026AUG20-0013	Wifi not working	Self	Takshashila building, Gr...	Open	20-Aug-2026 10:32 AM IST	...

Step 2. Click any ticket in the list to open its detail page, where you can see its current status, the details you have submitted, attachments, and comments.

The screenshot shows the detail page for ticket '2026AUG20-0045: VPN from Outside IIT KGP'. The page is divided into several sections: PROBLEM DETAILS, TICKET METADATA, TERMS & CONDITIONS, and DISCUSSION & FILES. The PROBLEM DETAILS section includes fields for DEPARTMENT/CENTRE/SCHOOL (CIC), DESIGNATION (System Engineer), EMPLOYEE ID (12345), START DATE (20-08-2026), END DATE (21-09-2026), and REASON FOR REQUEST (Research Purpose). The TICKET METADATA section includes USER CONTACT (Self), CREATED BY (Self), CREATED AT (20-08-2026), LAST UPDATED BY (Self), LAST UPDATED AT (20-08-2026), and TICKET STATUS (Open). The TERMS & CONDITIONS section lists 5 terms and conditions, with a checkbox indicating agreement. The DISCUSSION & FILES section includes a 'Comments' tab and a 'Post Message' button.

7. Closing or Reopening Your Tickets

Once the ticket is resolved by the CIC team, two options—**Close** and **Reopen**—will appear in the top-right section of the Ticket Details page. You may **Close** the ticket if your issue has been fully resolved, or **Reopen** it if any issue is still pending or requires further assistance.

The screenshot shows the CIC Helpdesk interface for ticket 2026AUG20-0044. The page is divided into several sections:

- Problem Details:** Includes fields for Issue Title ("Network port dead in Room 203"), Issue Description ("Network port dead in Room 203"), and Issue Location / Area ("CIC, Room no 203").
- Discussion & Files:** Contains a "Comments" section with a text input field and a "Post Message" button. Below it, a comment from Subha on 20-Aug-2020 07:08 PM is visible, stating "Resolution remarks : Done".
- Ticket Metadata:** Includes fields for User Contact (Self), Created By (Self), Created At (20-08-2020), Last Updated By (Subha), and Last Updated At (20-08-2020). The Ticket Status is "Resolved".
- Assignment:** Shows the ticket is owned by Subha and currently assigned to Subha.

At the top right, there are buttons for "Back", "Close", and "Re Open".

Note: After a ticket is resolved, if user do not close the ticket manually, the ticket will be automatically closed after 24 hours.

8. Understanding the ticket status

CIC Helpdesk ticket moves through a few stages. The common ones you will see are:

Status	What it means
Open	Received by CIC, waiting to be picked up.
Document Pending	(Service requests only) Waiting for user to upload the signed & stamped form and click Submit Documents.
In Progress	CIC is actively working on it.
Resolved	The work is complete — please confirm it is fixed.
Closed	The ticket is finished and closed.

9. Frequently Asked Questions

Q. I don't know whether I'm an ERP or non-ERP user.

If you can log in to ERP portal with your Employee ID / Student Roll no, you are an ERP user — use that ID. If you were given a separate email + password for the portal, you are a non-ERP user — use the email.

Q. The math question keeps failing.

A new question is shown on each attempt — read the current one carefully and enter the exact answer, then click Login.

Q. Do I have to print the form for a General Ticket?

No. Printing only applies to service requests (Walkthrough B). General Tickets are fully online.

Q. I submitted a service request but nothing is happening.

Service requests need the signed & stamped copy uploaded to the ticket and Submit Documents clicked. Until you do that, the ticket stays in Document Pending and CIC has not received it yet — no physical delivery is needed, only the upload.

Q. I clicked Submit Documents but got a warning.

That means no signed copy has been uploaded yet. Go to the Upload Signed Form section, attach the scanned/photographed signed & stamped form, then click Submit Documents again.

Q. Can I edit a ticket after submitting?

While a service request is in Document Pending, you can update the form fields and re-print if needed. If you reprint after making changes, get the new copy signed & stamped again and upload that version before clicking Submit Documents. Once processing begins, contact CIC for any further changes.

Q. Can I edit a ticket after submitting?

While a service request is in Document Pending, you can update the form fields and re-print if needed. If you reprint after making changes.

Q. Why my ticket status is not getting updated?

After ticket is raised, CIC Helpdesk team will pick it up as per queue. Please keep patience. You can always reach out to CIC via email helpdesk@cc.iitkgp.ac.in with your Ticket ID.

Q. Whom to contact in case of any challenges or issues?

Email helpdesk@cc.iitkgp.ac.in with your Ticket ID.
