

ABAQUS 2021 Installation Guide

Windows Installation Manual
Central Computer & Informatics Centre (CIC)
Indian Institute of Technology Kharagpur

This document provides step-by-step instructions for installing **ABAQUS 2021** on Windows systems using the CIC Software Repository.

Important Note: For the latest version of ABAQUS, check the CIC software repository at <http://swrepo.iitkgp.ac.in>.

Step 1: Click Run [\\swrepo.iitkgp.ac.in] to login to the software repository.

Step 2: Login using Username / Password: guest.

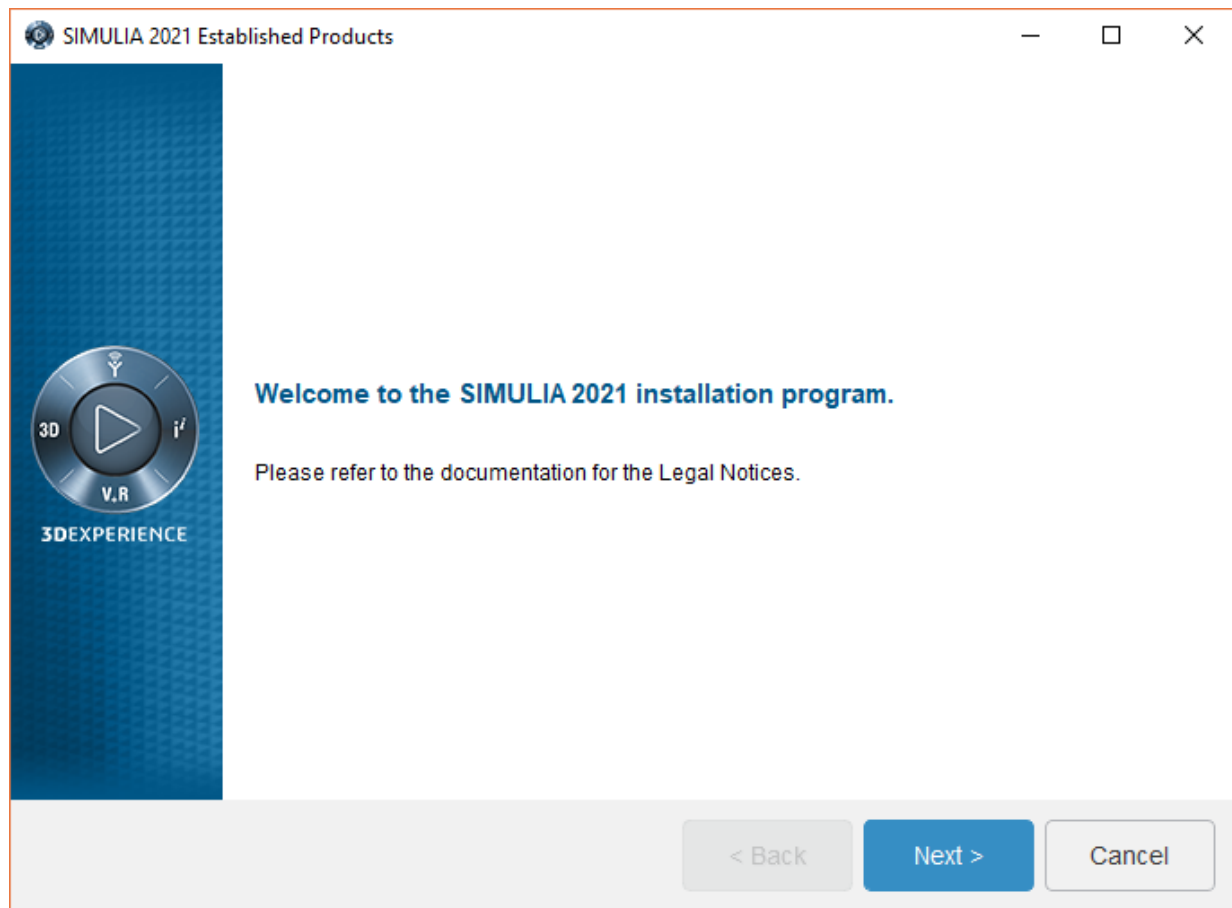

Step 3: Open the Software Repository.

Step 4: Navigate to Abaqus2021 → ALLOS → AM.SIM.Abacus_Extend_ALLOS.

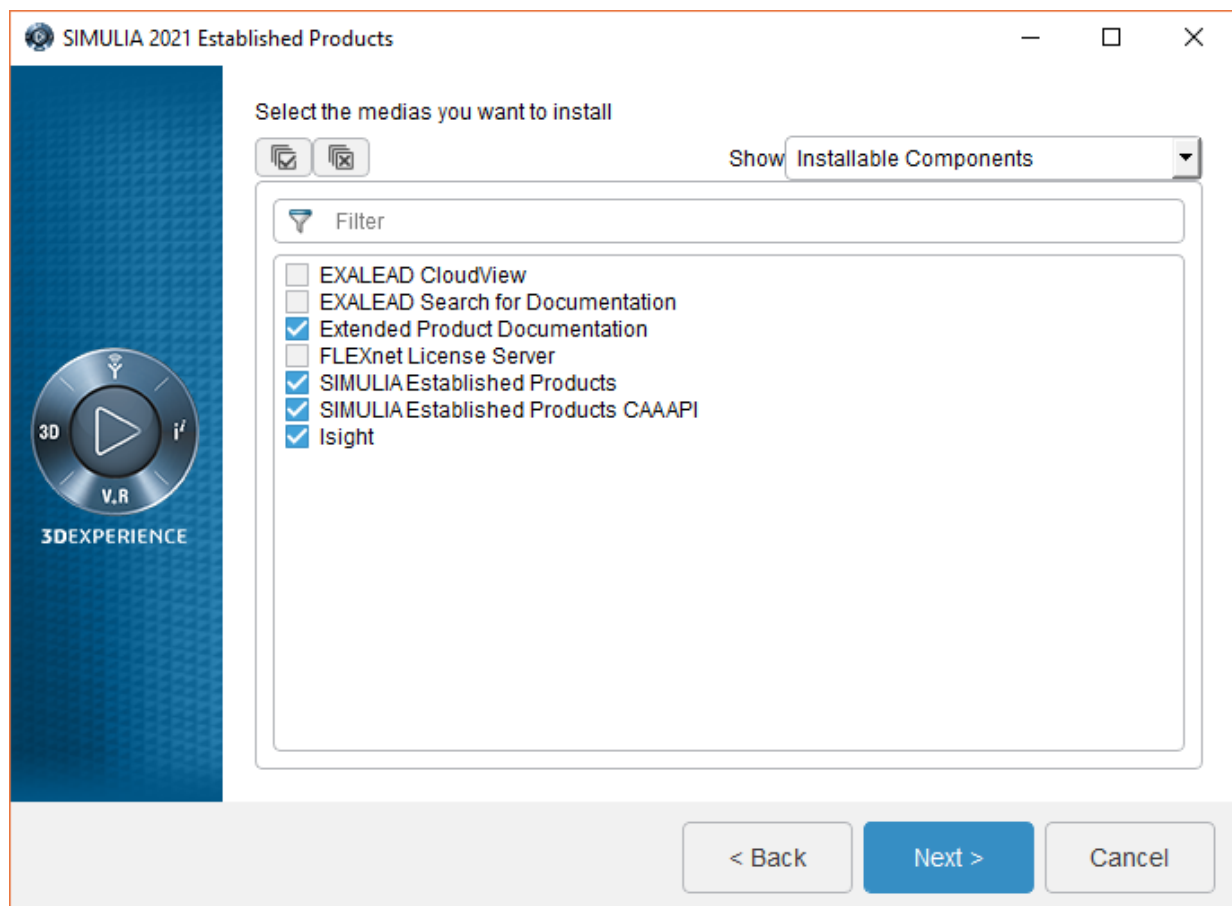

Step 5: Copy all directory contents locally to your machine.

Step 6: Go to Directory 1.

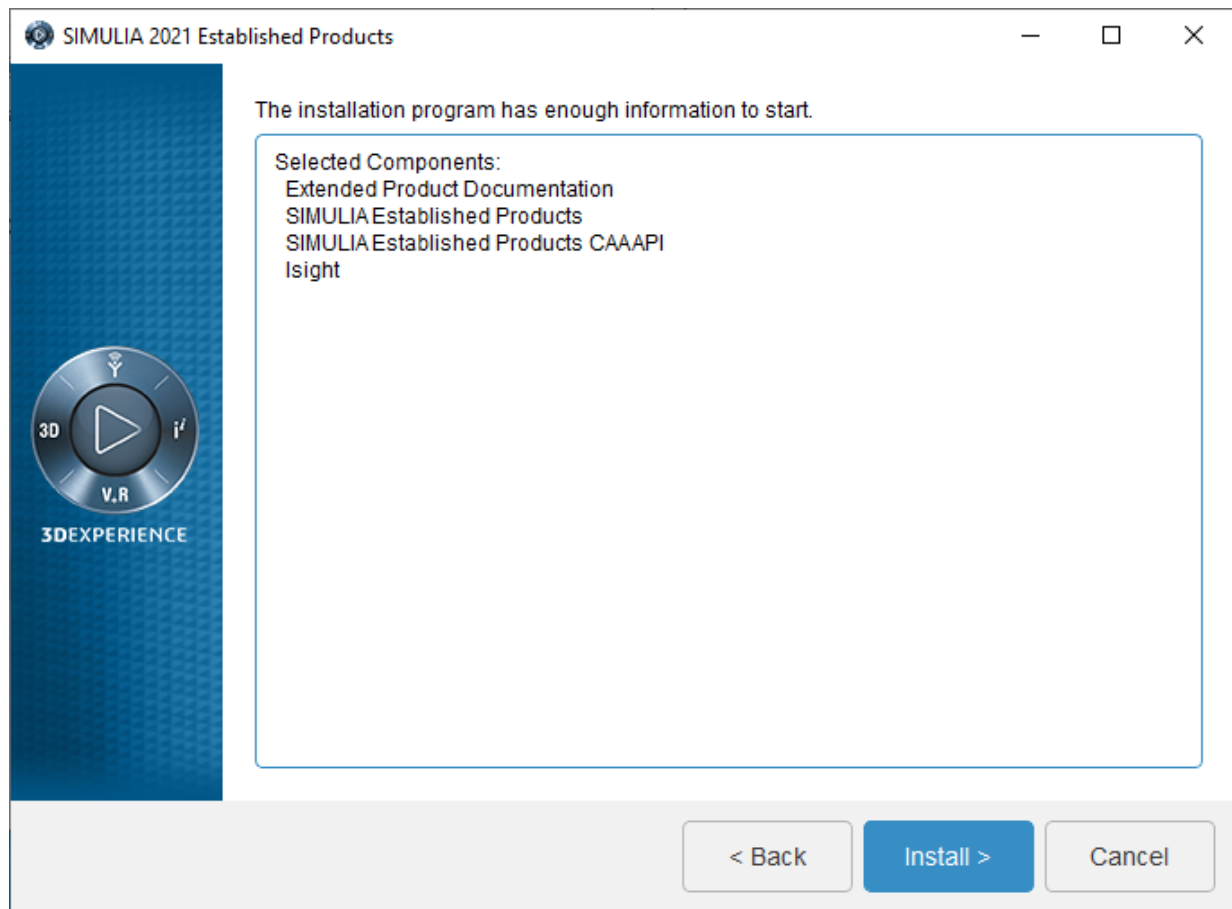

Step 7: Run setup.exe.

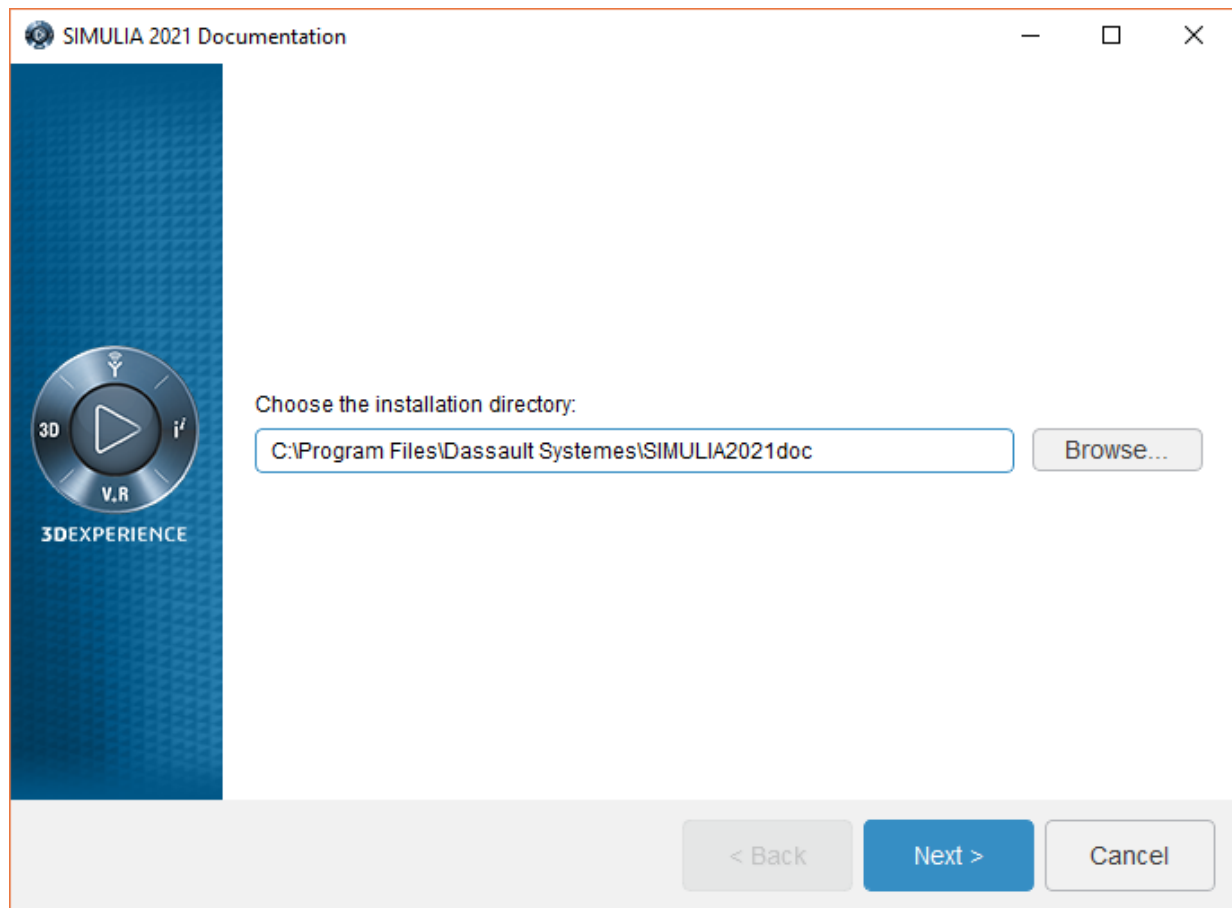

Step 8: Click Next.

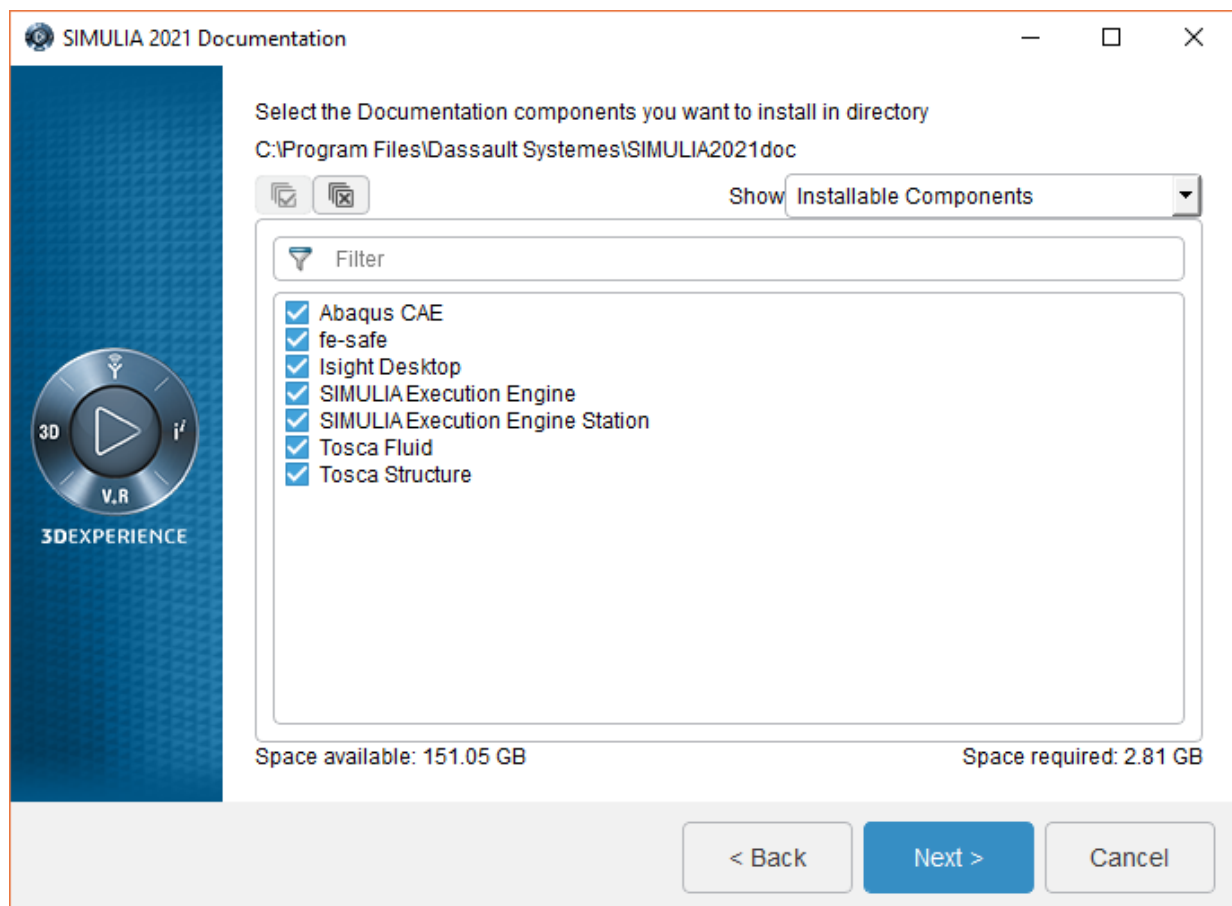

Step 9: Click Next.

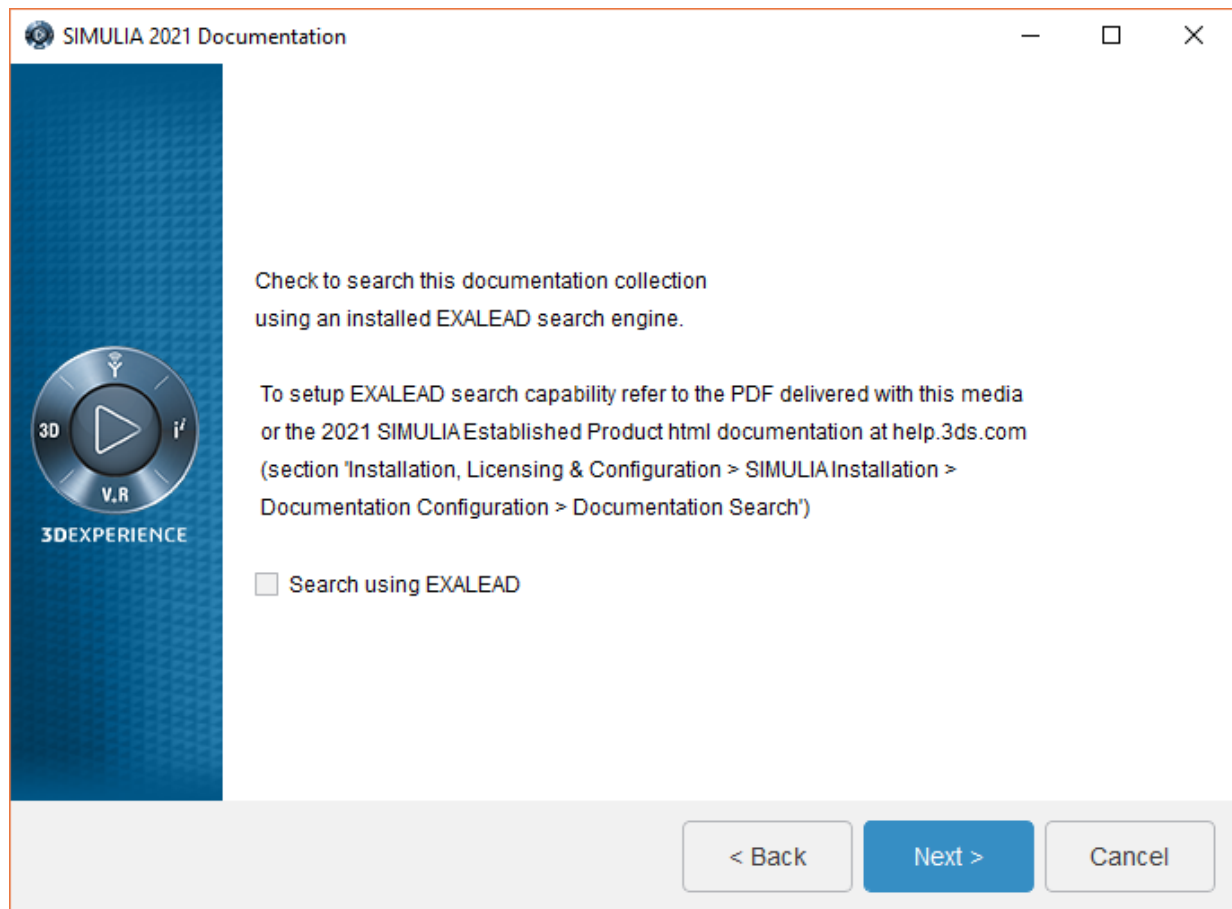

Step 10: Click Install.

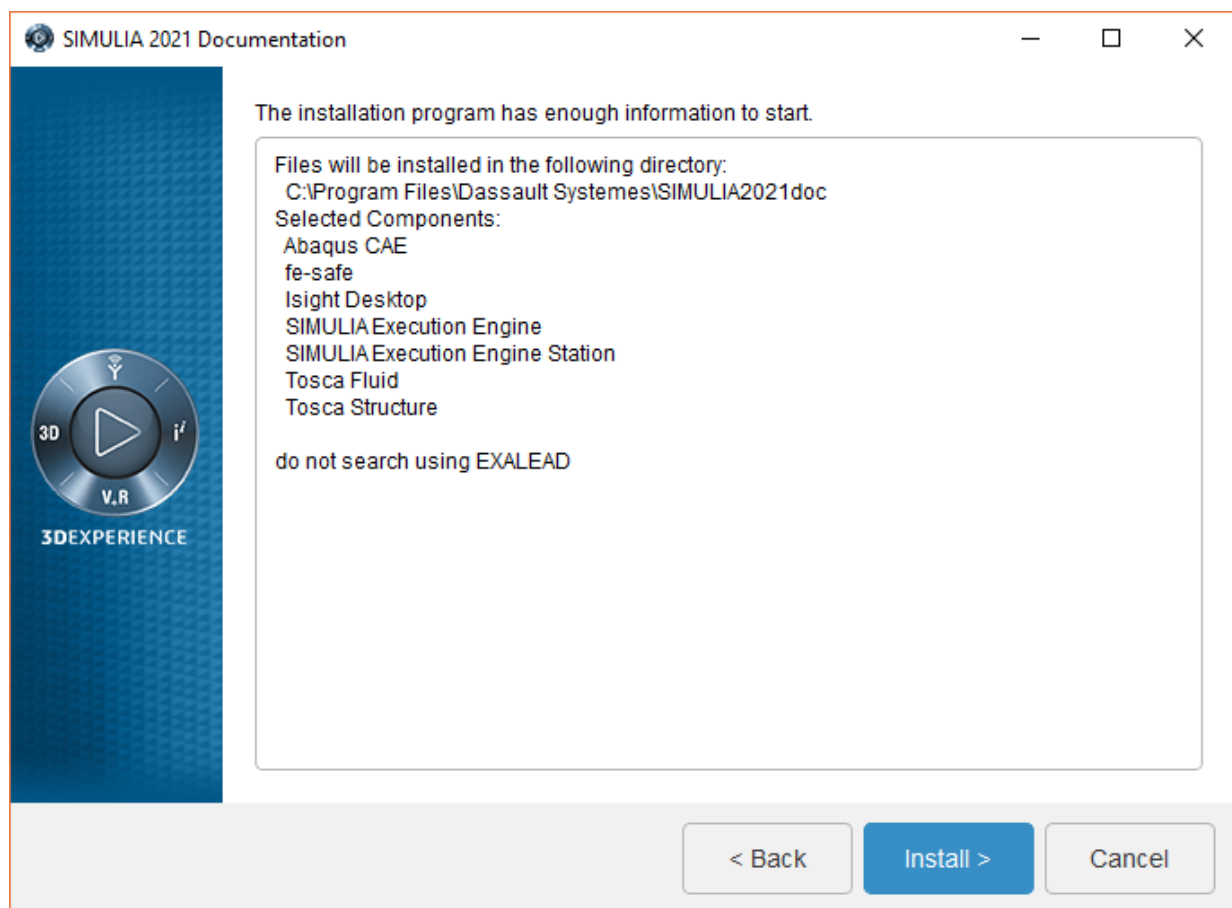

Step 11: Click Next. Users may change installation path if required.

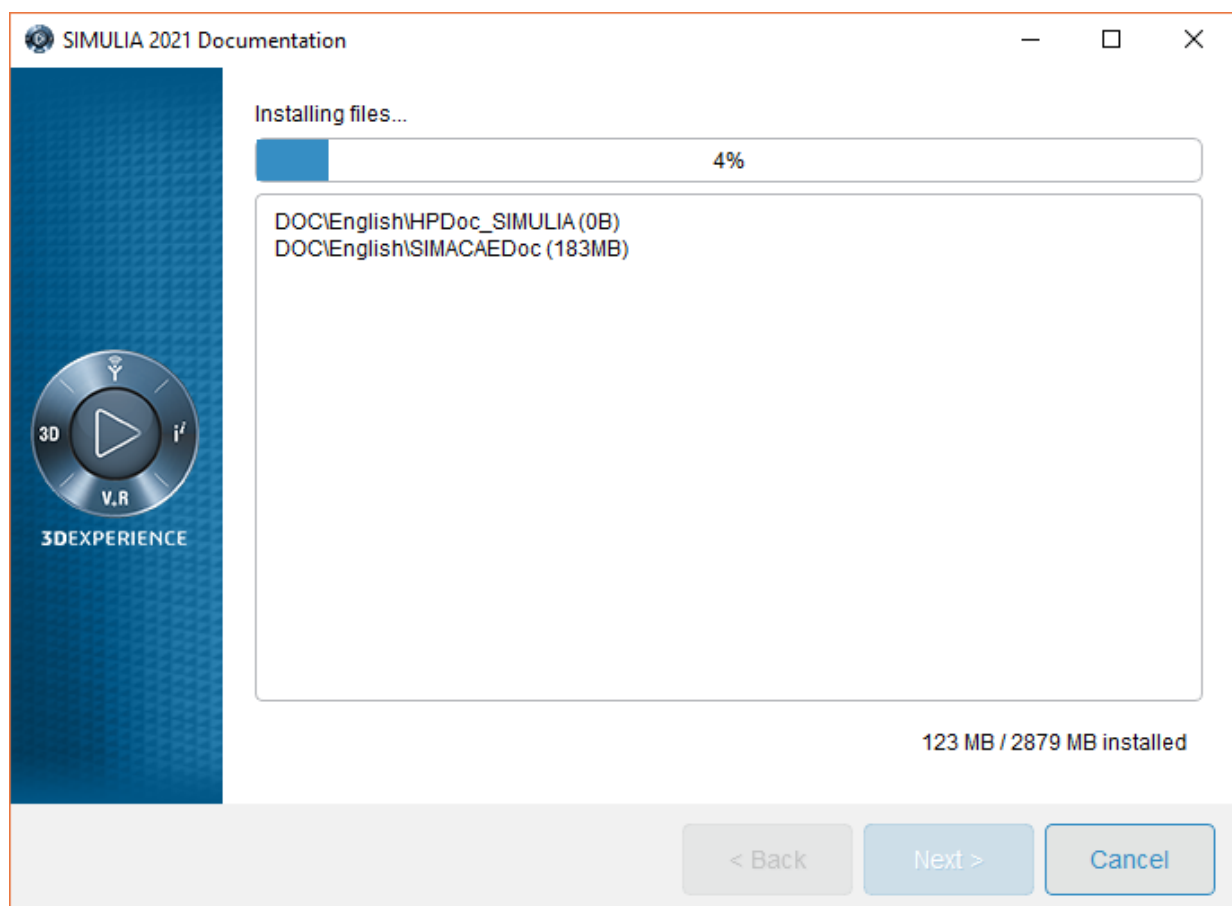

Step 12: Click Next.

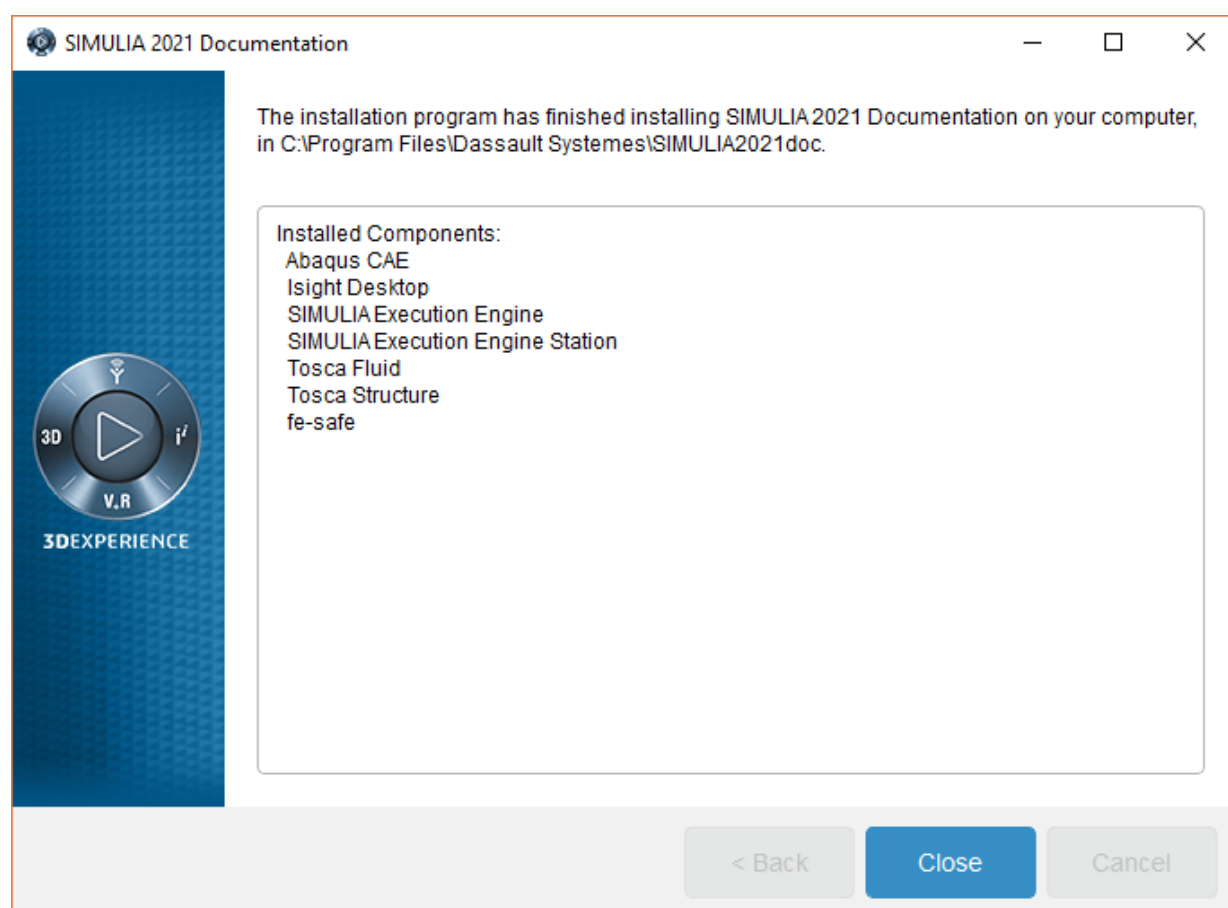

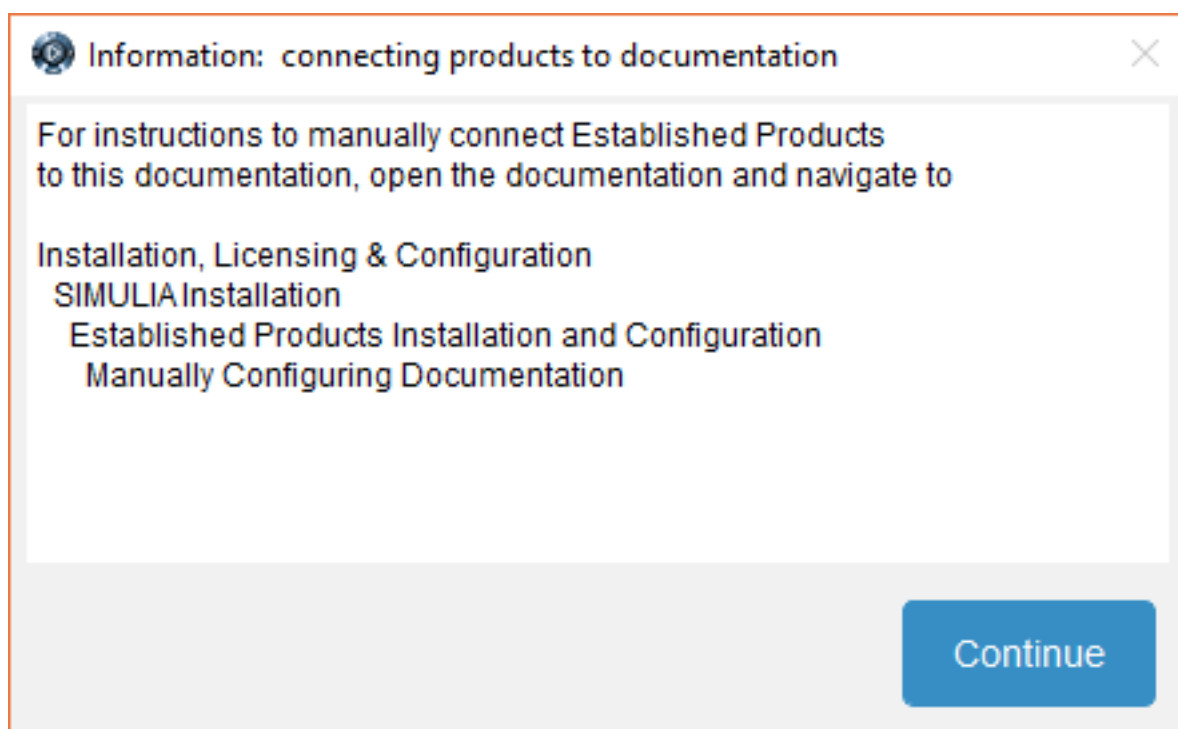

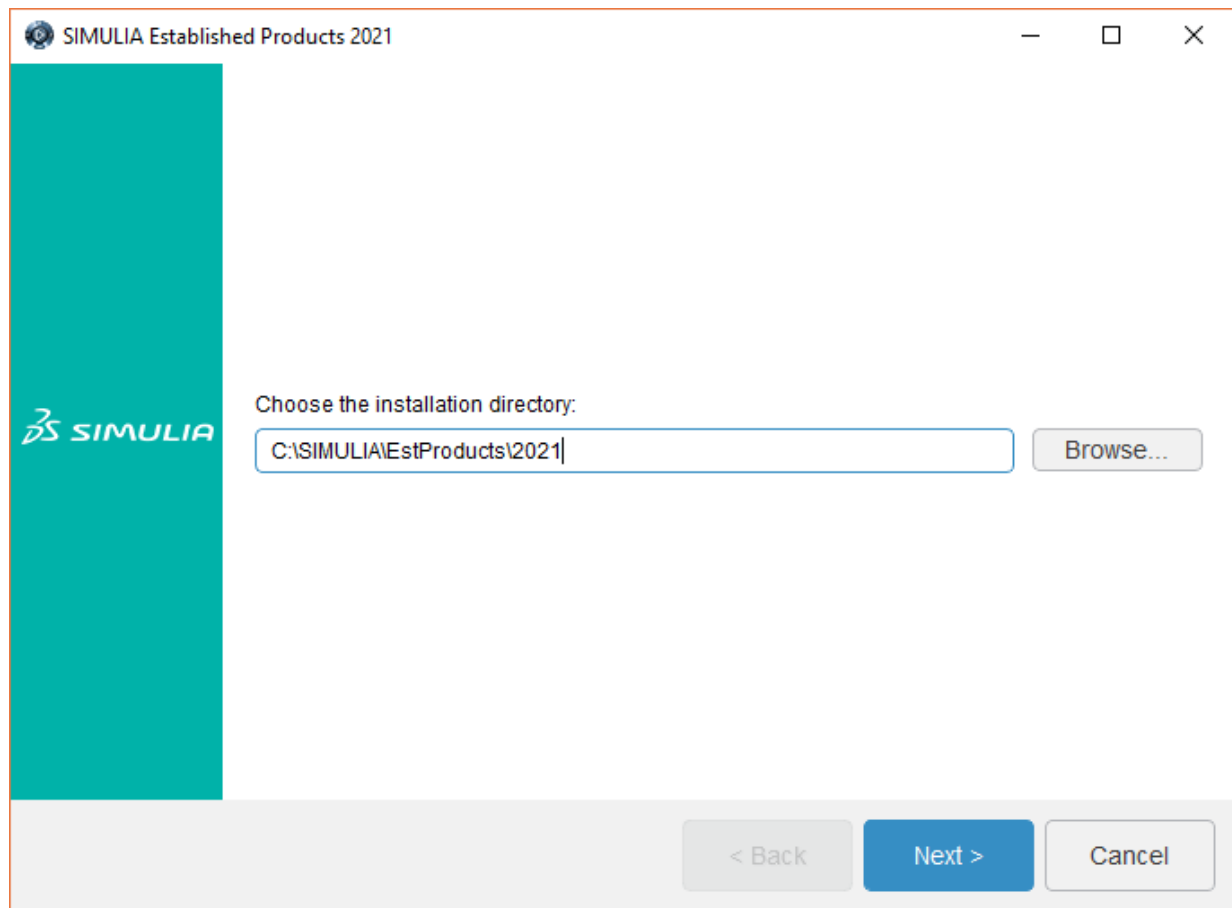

Step 13: Click Next.

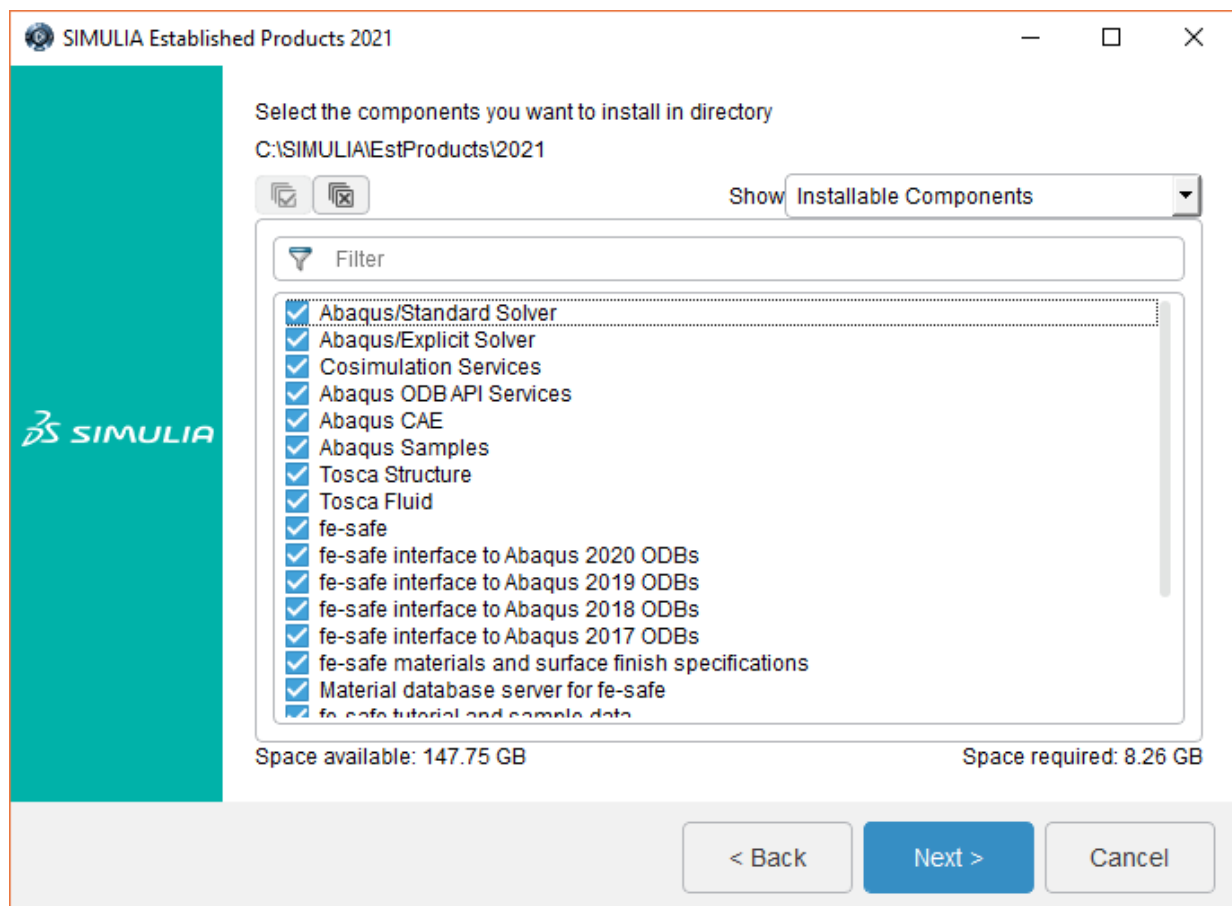

Step 14: Click Install.

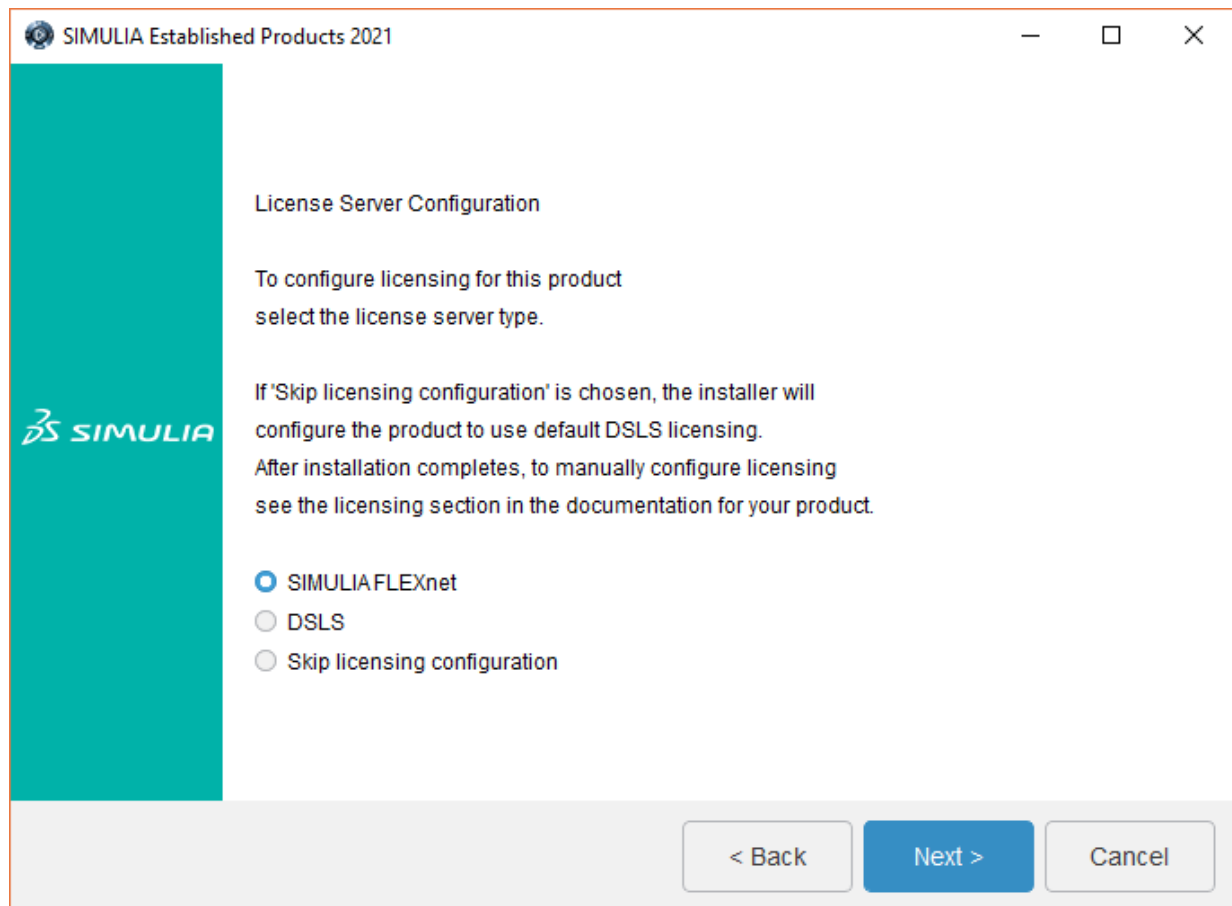

Step 15: Click Close.

Step 16: Click Next.

Step 17: Click Next.

 SIMULIA Established Products 2021

SIMULIA FLEXnet License Server

Please enter the hostname or IP address of your FLEXnet license server(s).

Enter a single standalone server on line 1. If needed, enter a second standalone server on line 2. If using 3 redundant servers enter one on each line.

Example: 27000@indigo.abaqus.com

License Server 1

License Server 2

License Server 3

< Back Next > Cancel

Step 18: Click Next.

 SIMULIA Established Products 2021

Working directory

Please choose your default working directory.

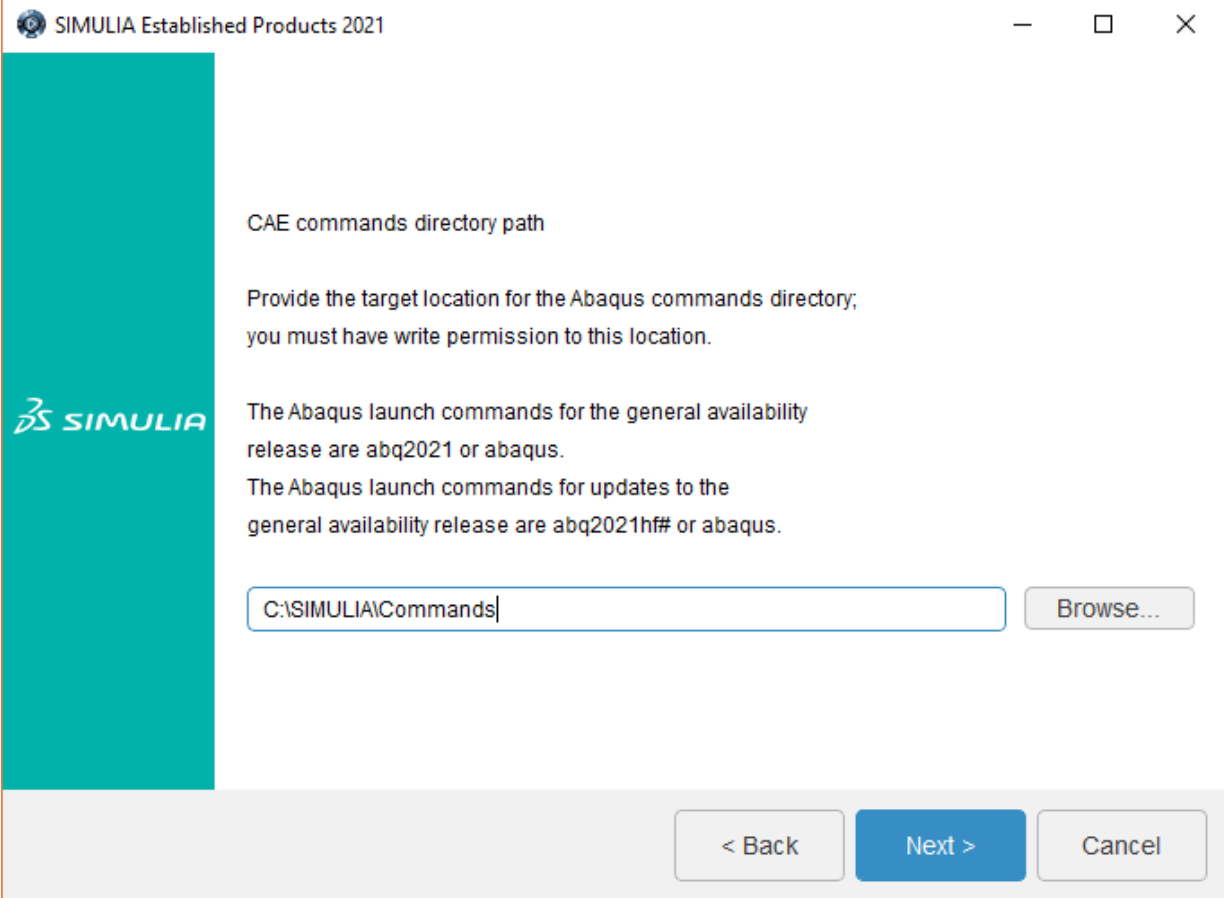

This directory contains Abaqus job files, and serves as a scratch directory for Tosca Fluid.

The directory should exist and have write permissions.

 Browse...

< Back Next > Cancel

Step 19: Click Next.

The image shows a window titled "SIMULIA Established Products 2021". On the left is a teal vertical bar with the SIMULIA logo. The main area contains the following text:

CAE commands directory path

Provide the target location for the Abaqus commands directory; you must have write permission to this location.

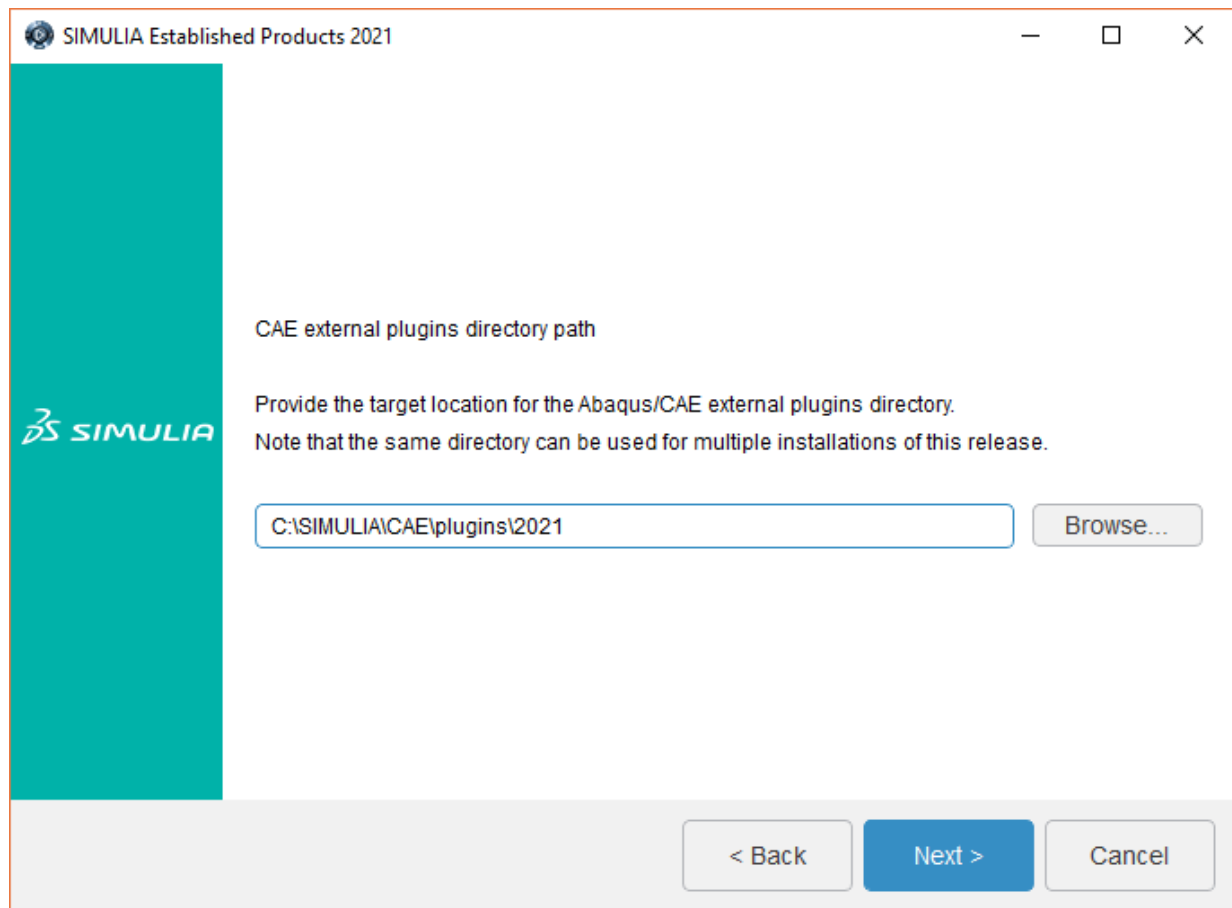

The Abaqus launch commands for the general availability release are abq2021 or abaqus.

The Abaqus launch commands for updates to the general availability release are abq2021hf# or abaqus.

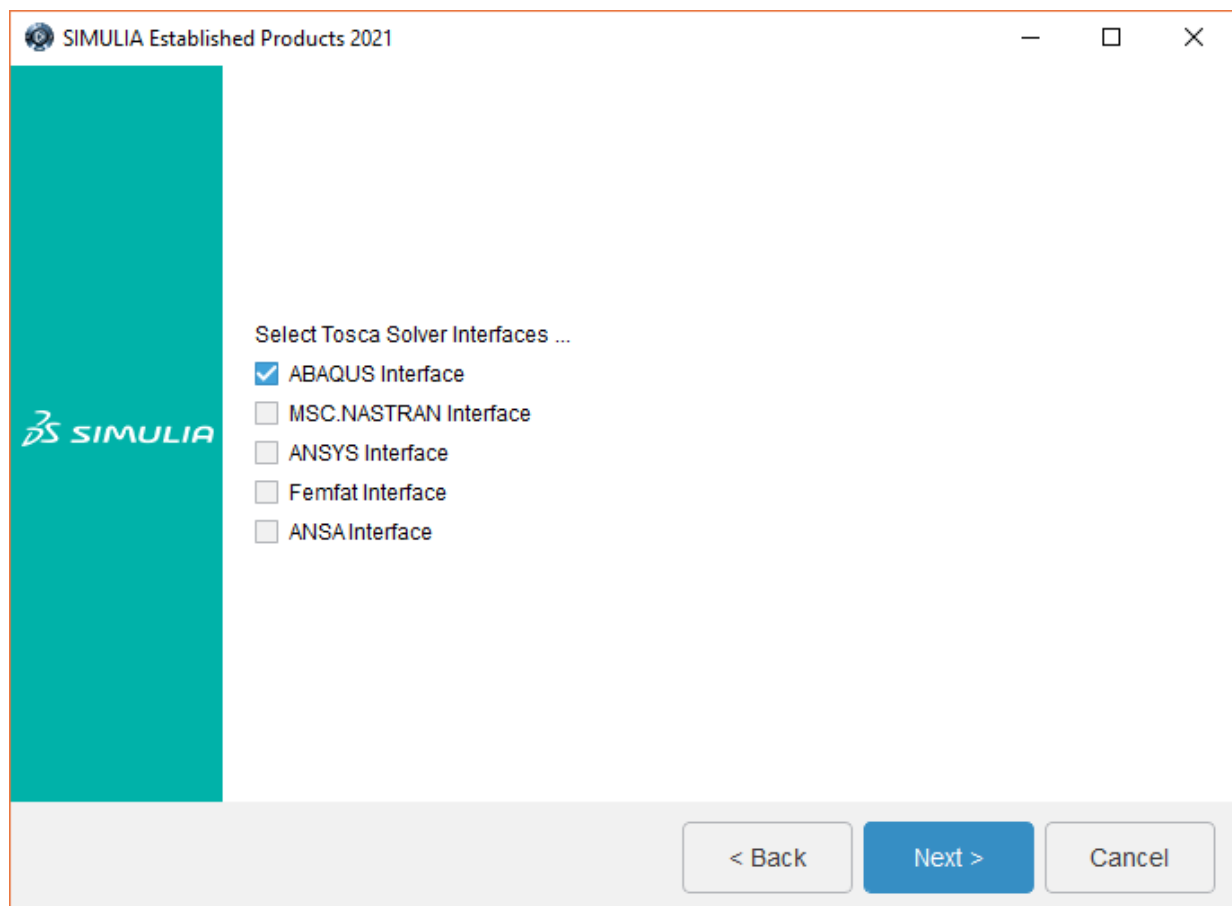

Below the text is a text input field containing "C:\SIMULIA\Commands" and a "Browse..." button to its right.

At the bottom right are three buttons: "< Back", "Next >" (highlighted in blue), and "Cancel".

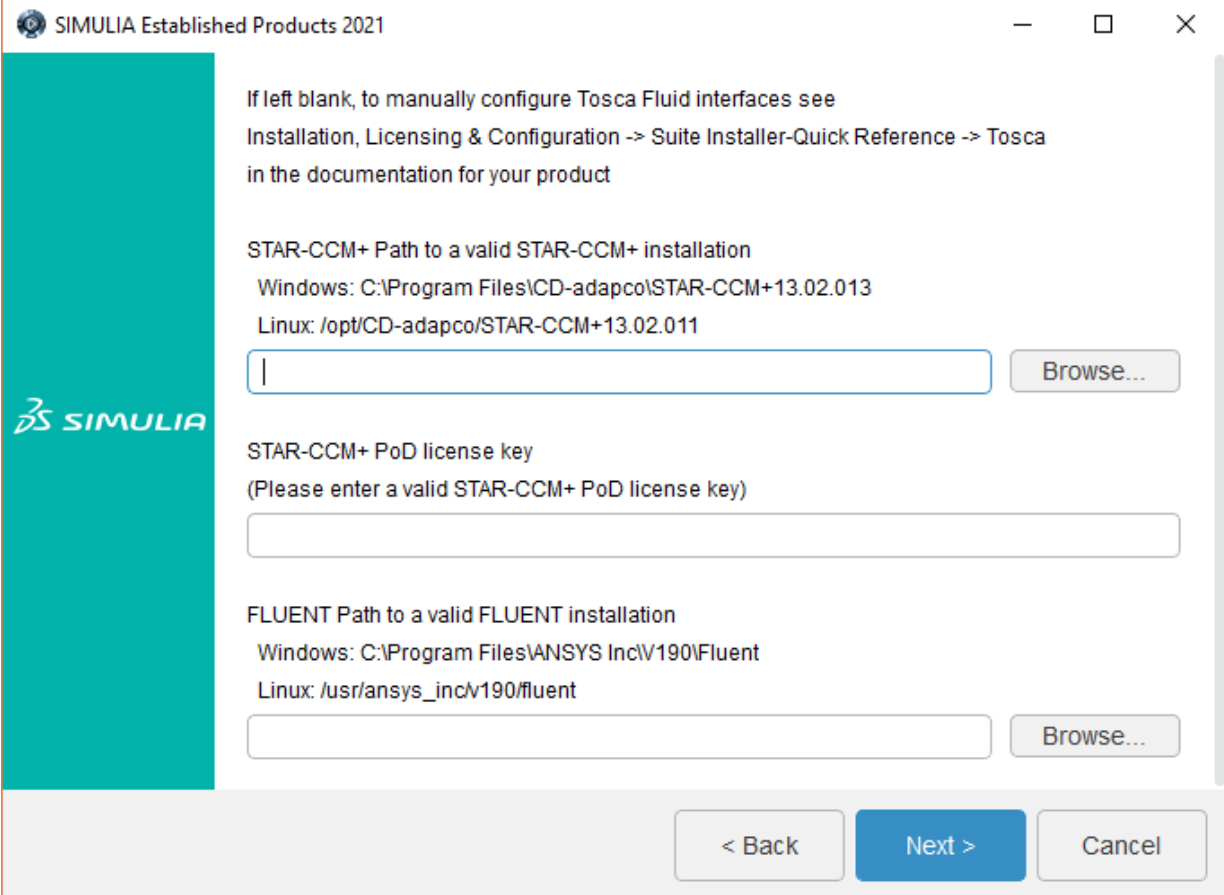

Step 20: Click Next.

Step 21: Click Next.

Step 22: Click Next.

The image shows a screenshot of the 'SIMULIA Established Products 2021' installation window. The window has a teal sidebar on the left with the SIMULIA logo. The main content area is white and contains the following text and fields:

If left blank, to manually configure Tosca Fluid interfaces see
Installation, Licensing & Configuration -> Suite Installer-Quick Reference -> Tosca
in the documentation for your product
