

Trend Micro ApexOne Client Antivirus Installation Guide

CIC centrally manages the **Trend Micro ApexOne Antivirus** solution for protecting your PC/Laptop from viruses.

Note: Before installing the Trend Micro ApexOne Client on your PC/Laptop, uninstall (remove) the existing Antivirus if any installed.

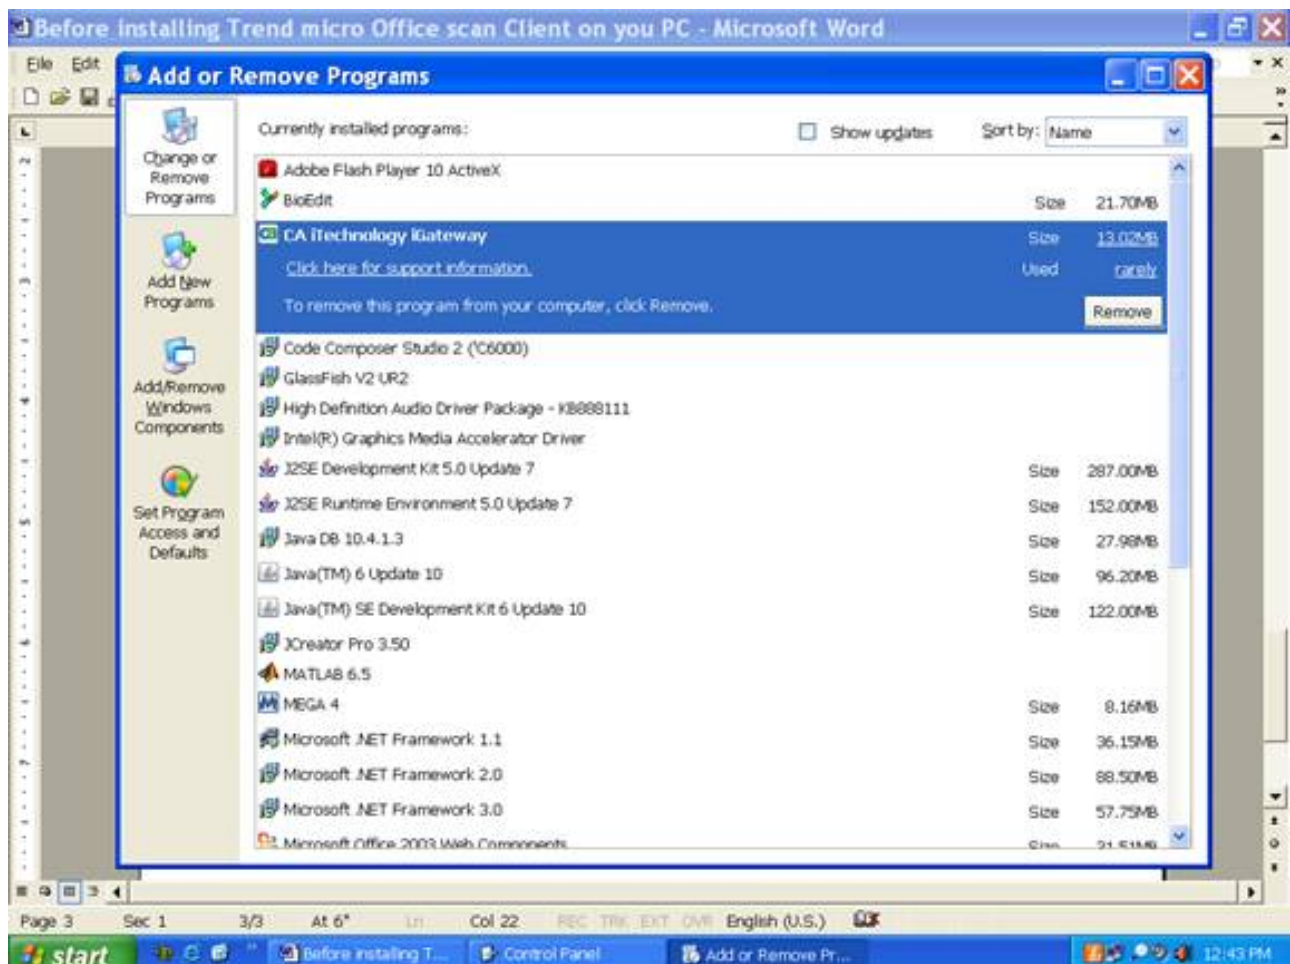

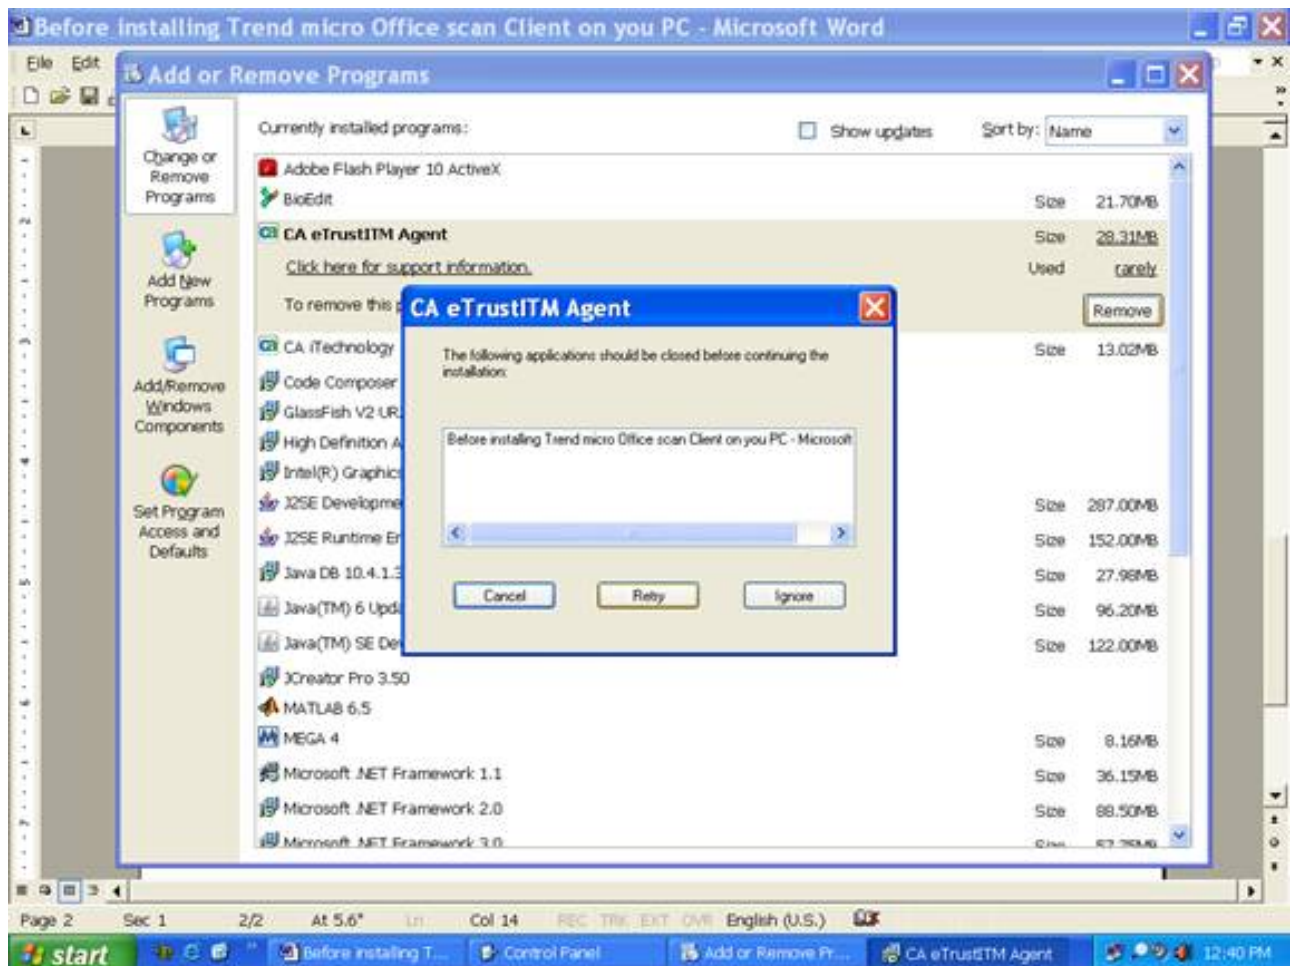

Step 1: Start → Run [\\antivirus.iitkgp.ac.in\ApexOne]

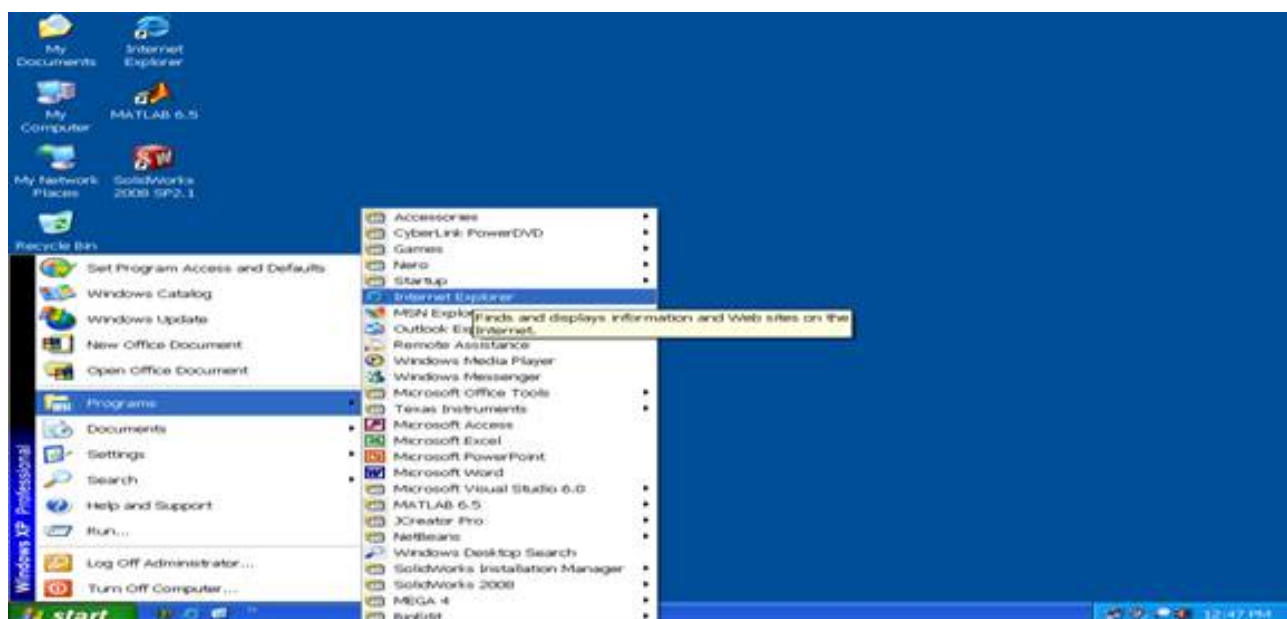

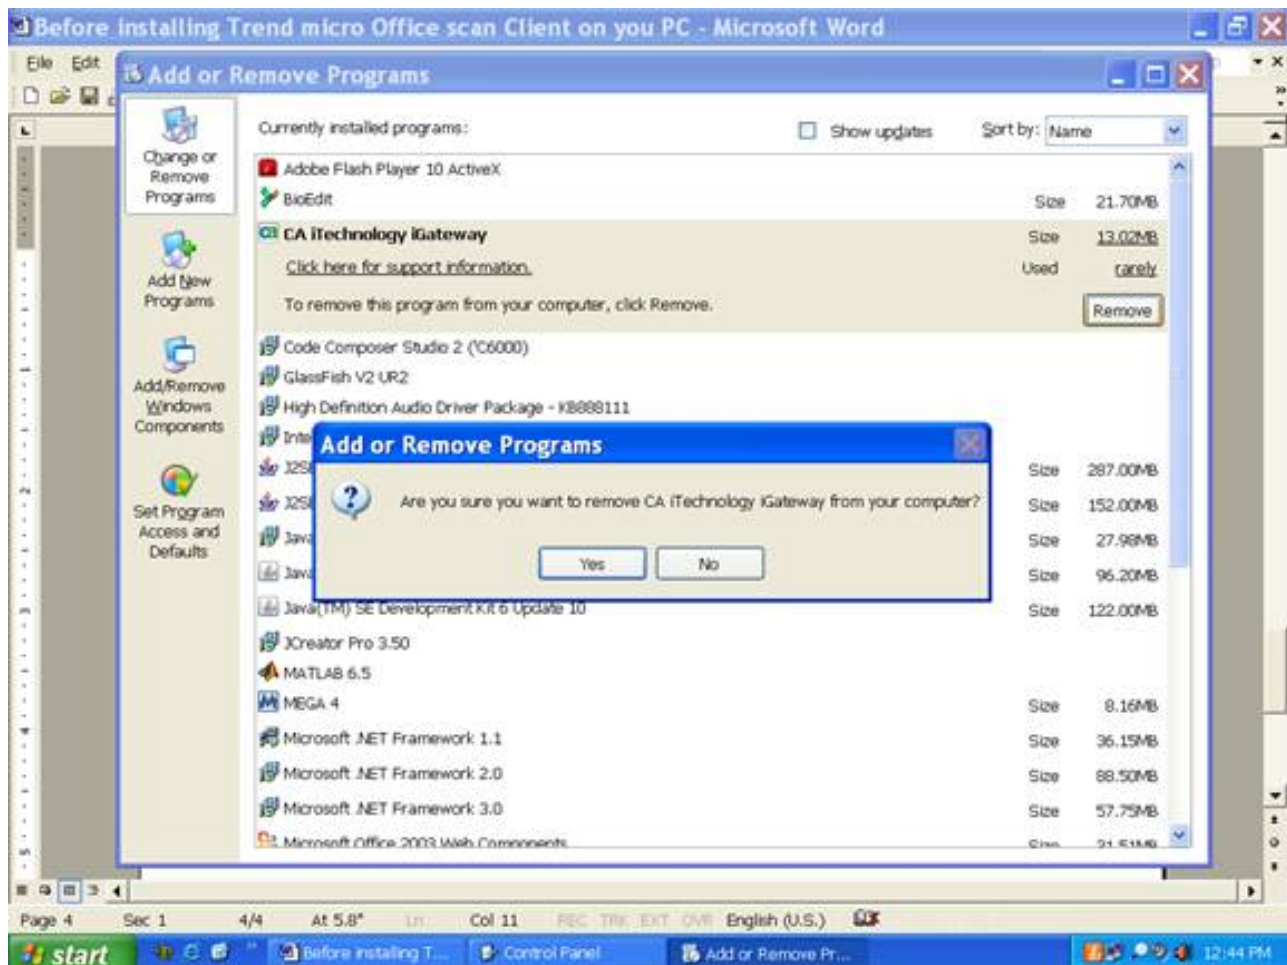

Step 2: Login with the following details:

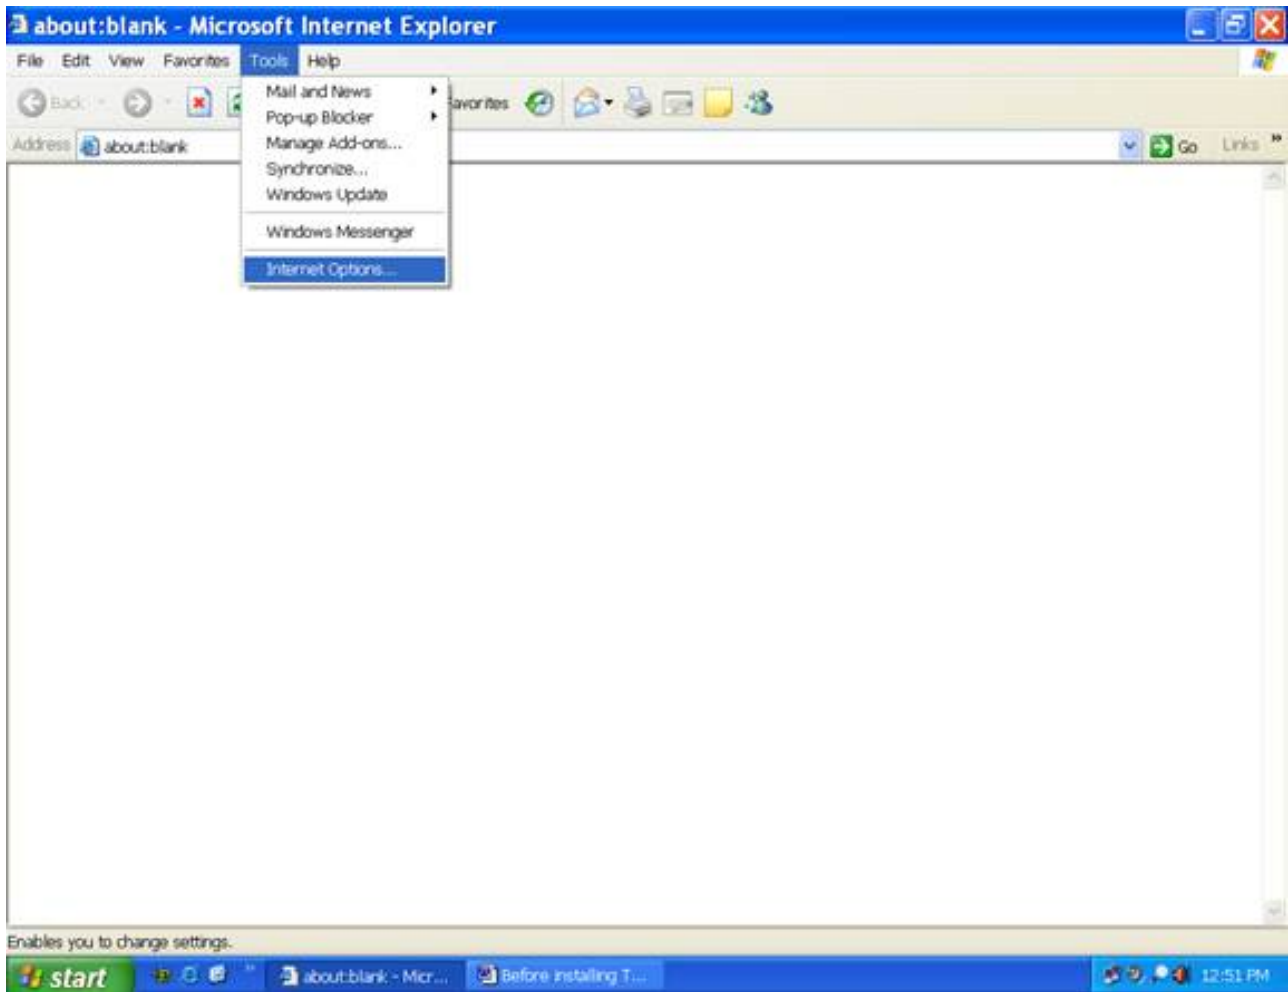

- User Name — iitkgpos
- Password — iit@123

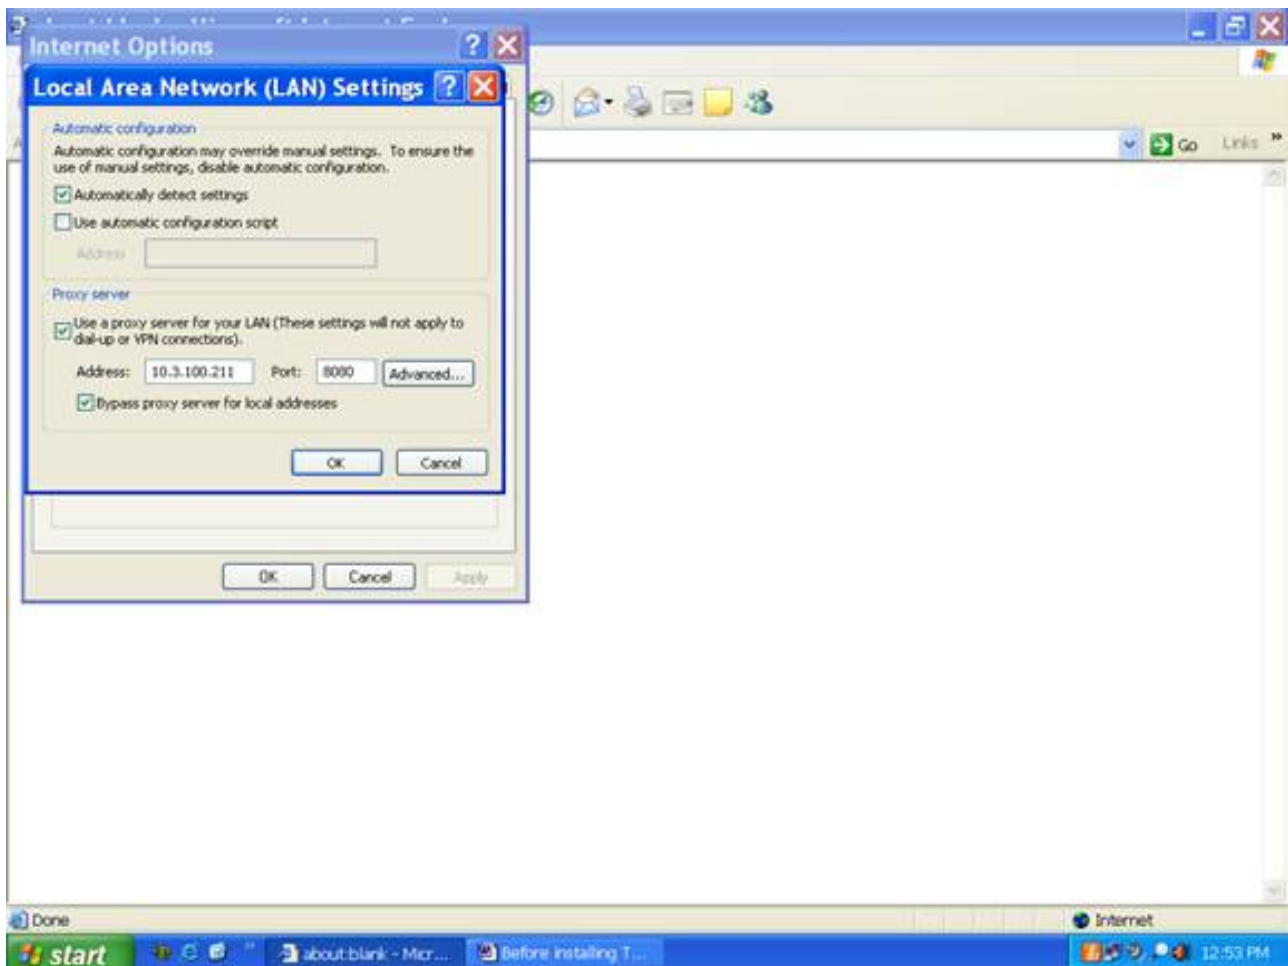

Step 3: Double click on the file "apexone.msi" to install the Antivirus.

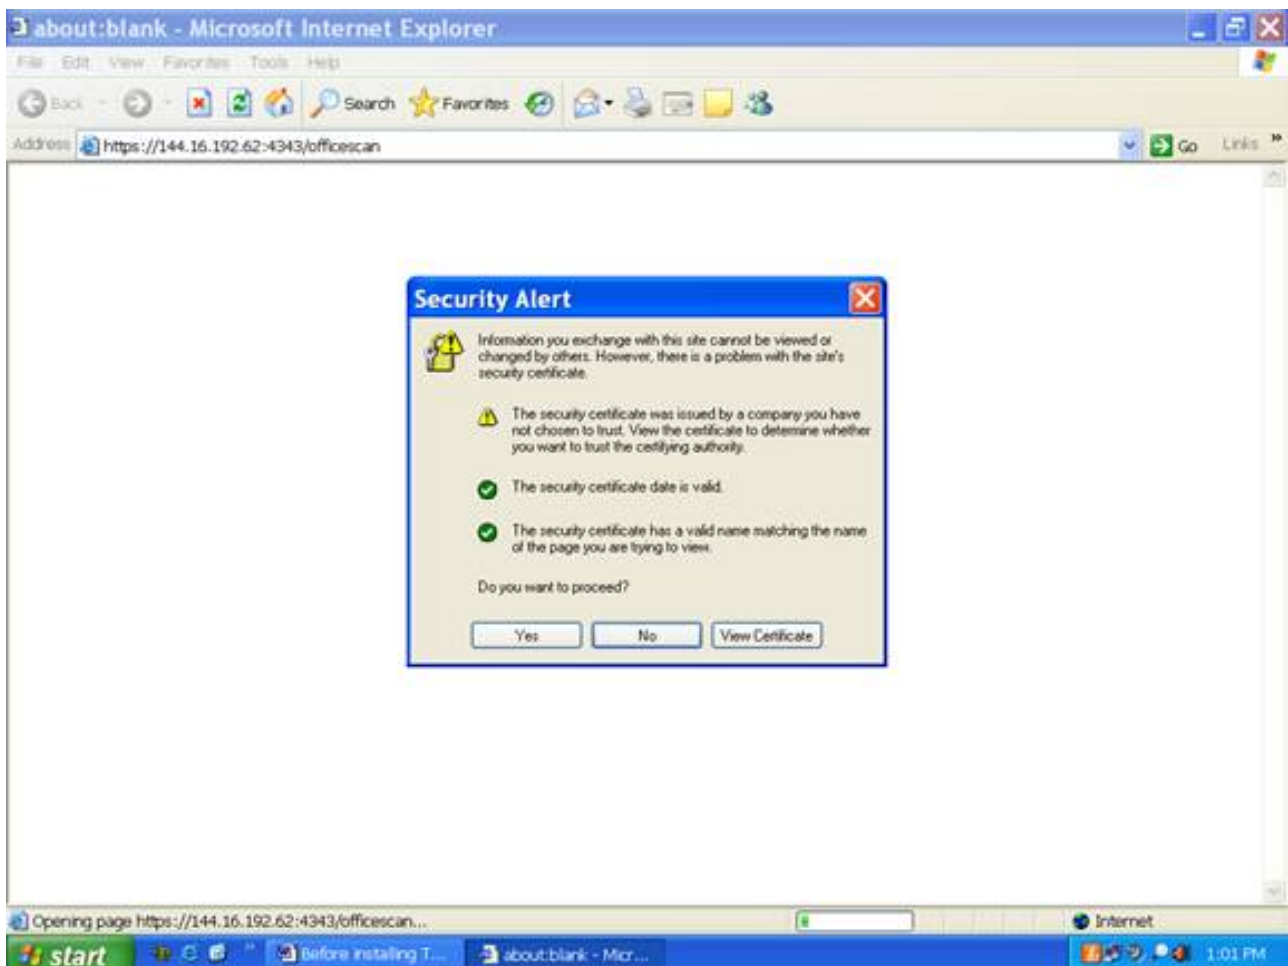

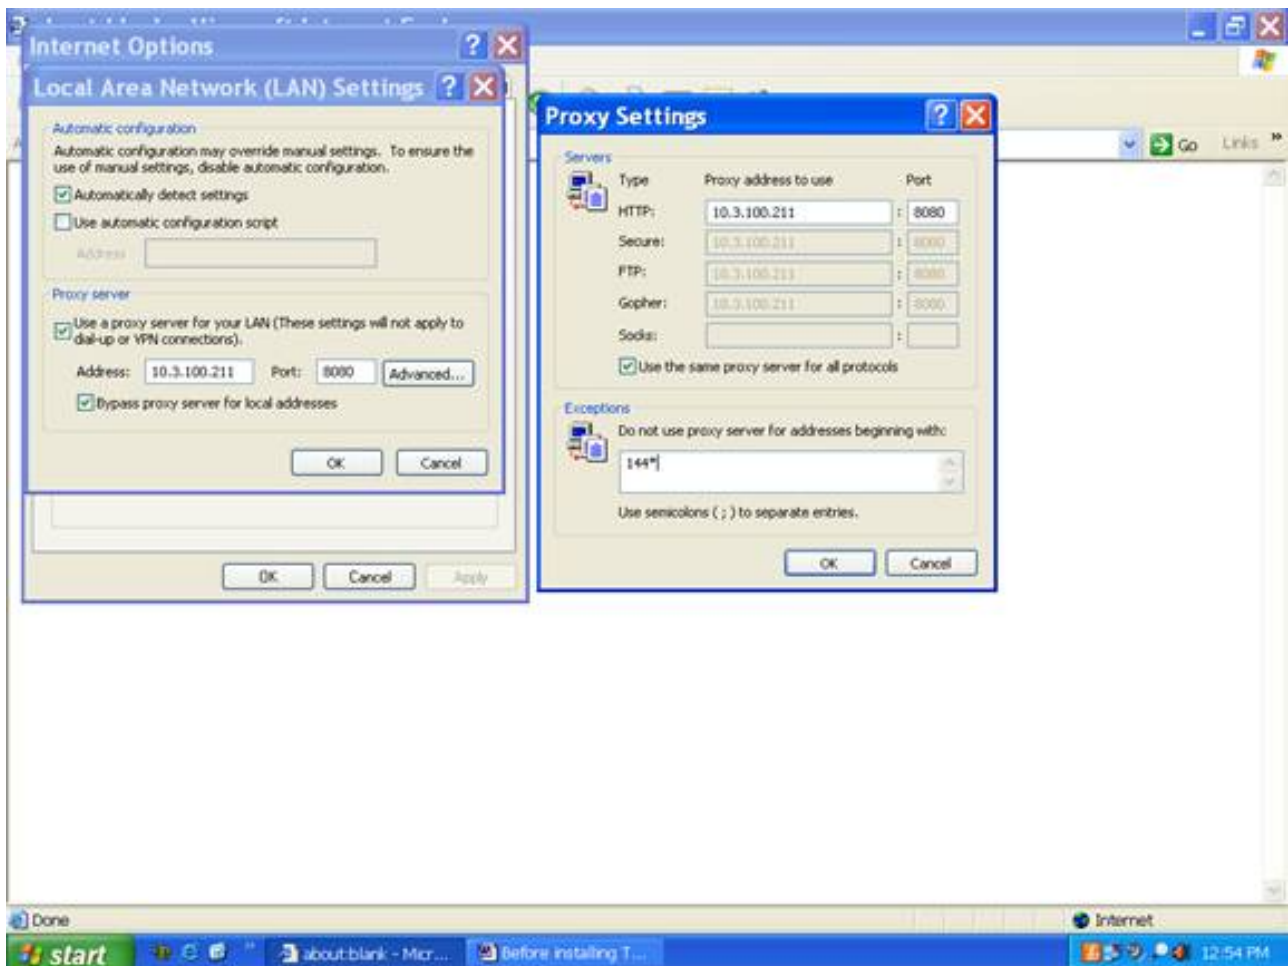

Step 4: Click "Next" and wait.

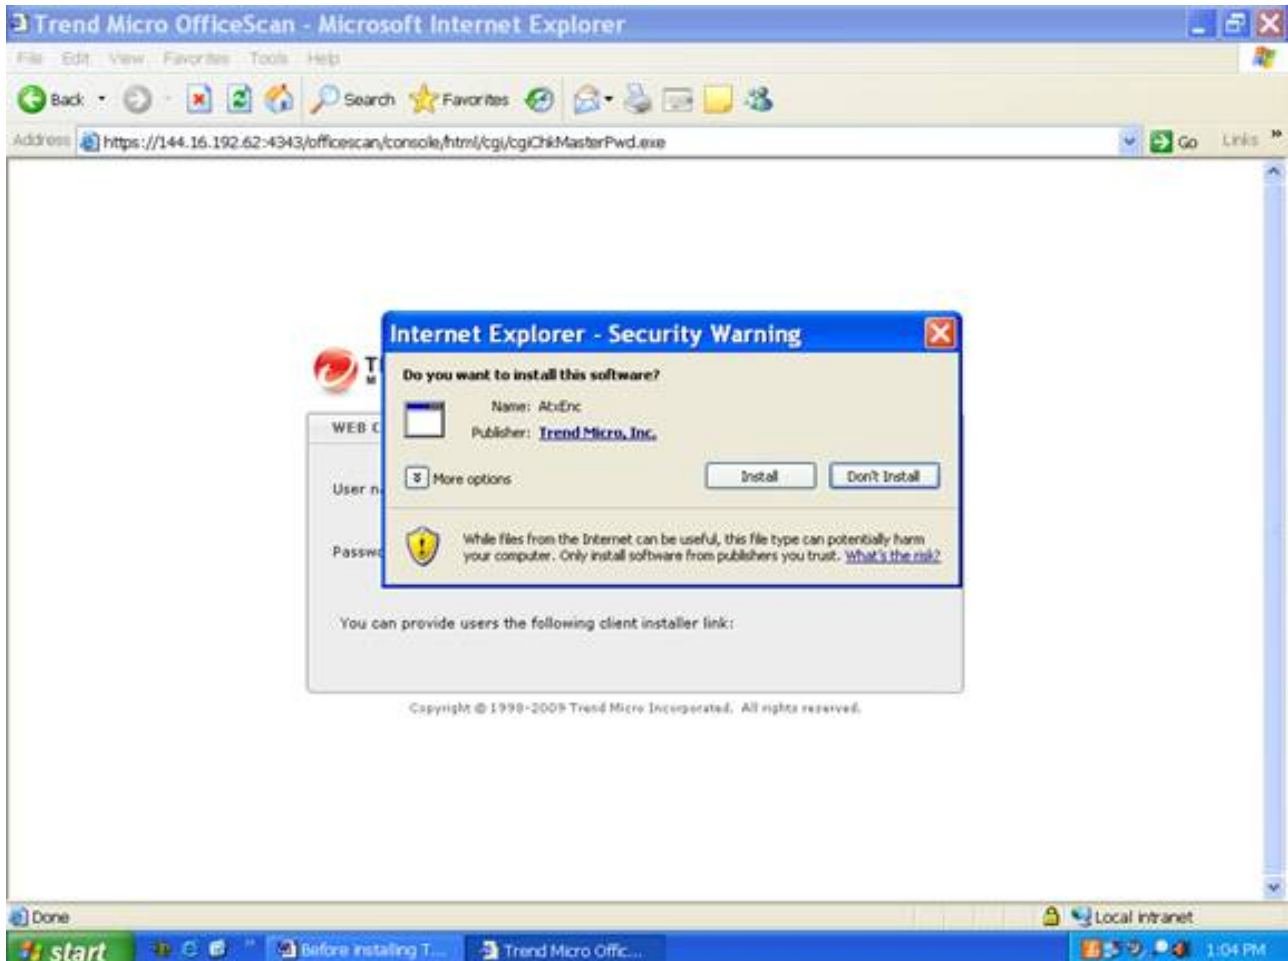

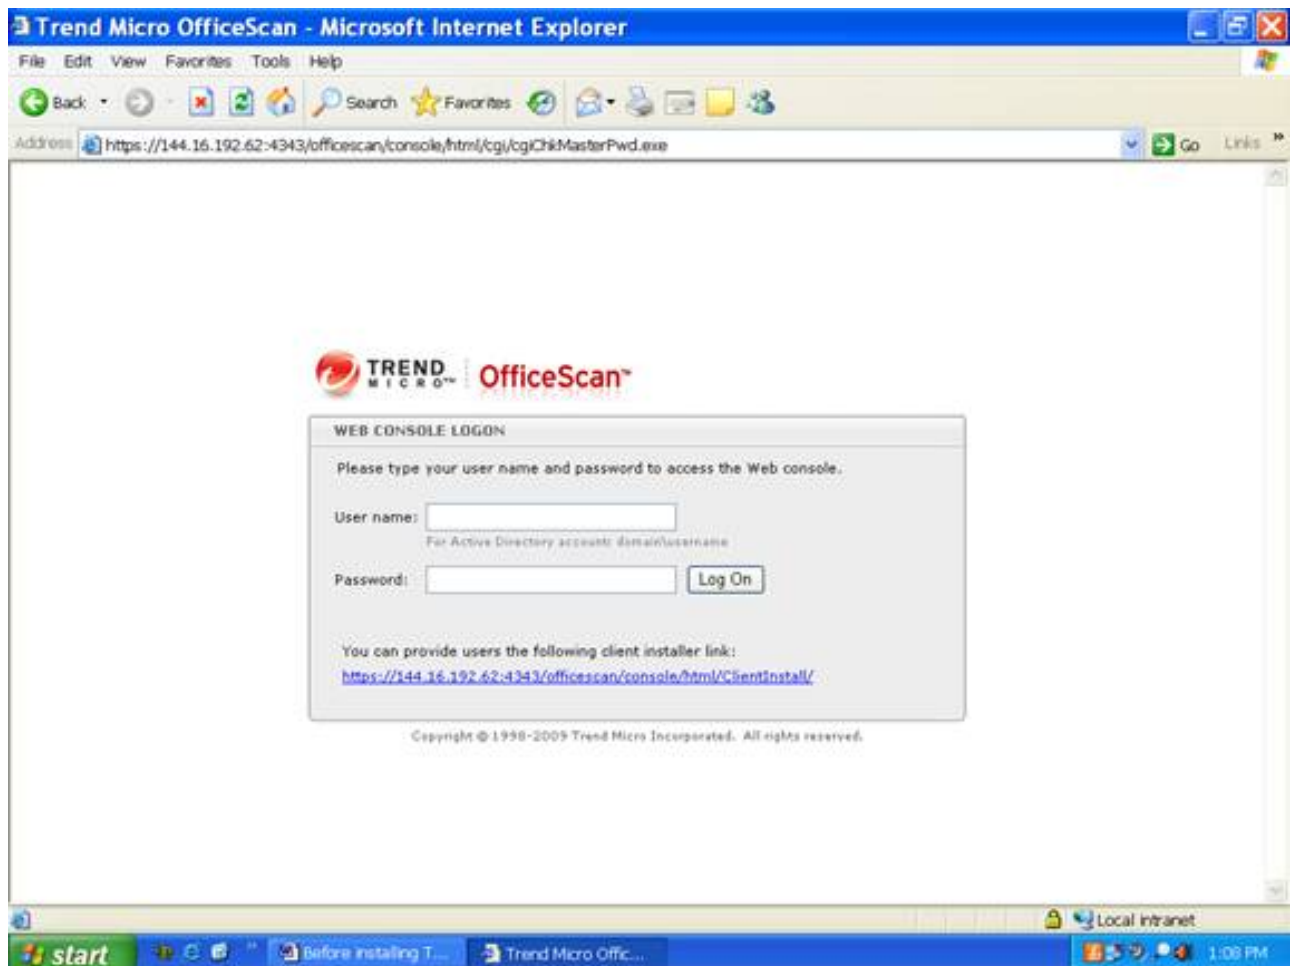

Step 5: Allow the program to make changes by clicking "Yes".

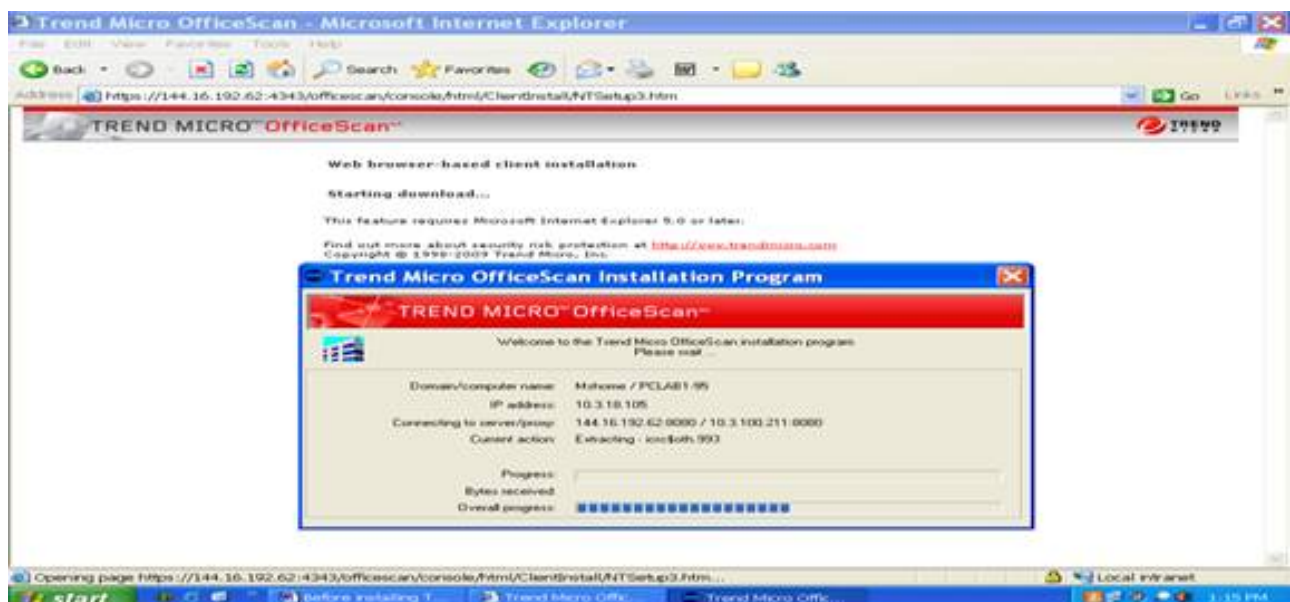

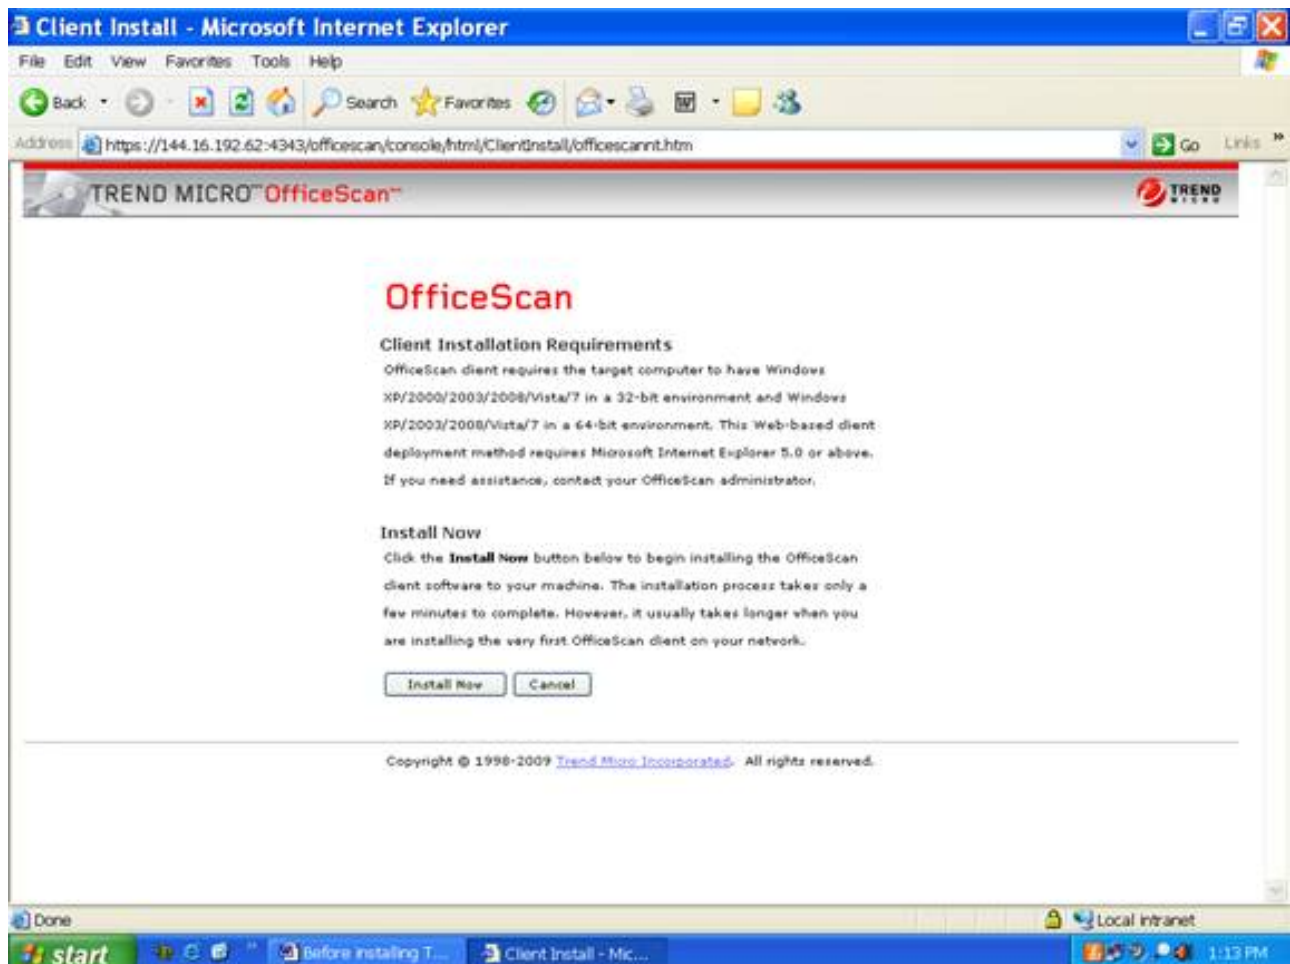

Step 6: ApexOne Client will be automatically installed and an icon will appear on your task bar.

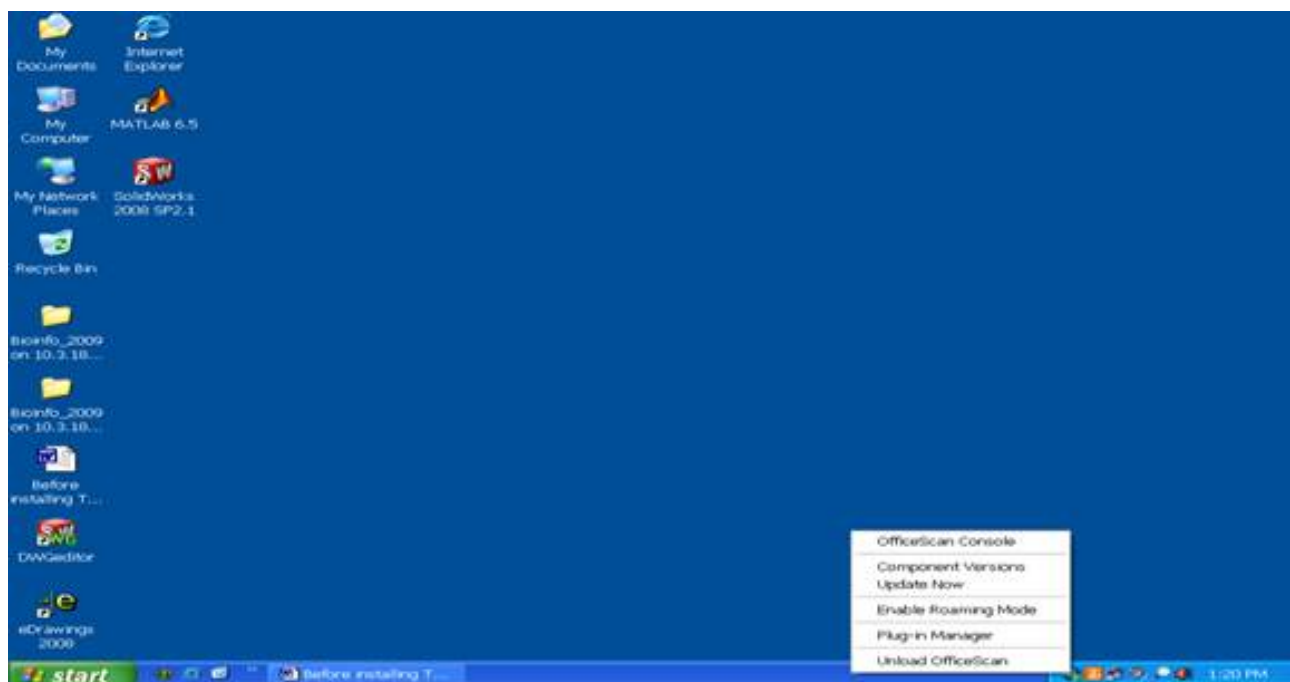

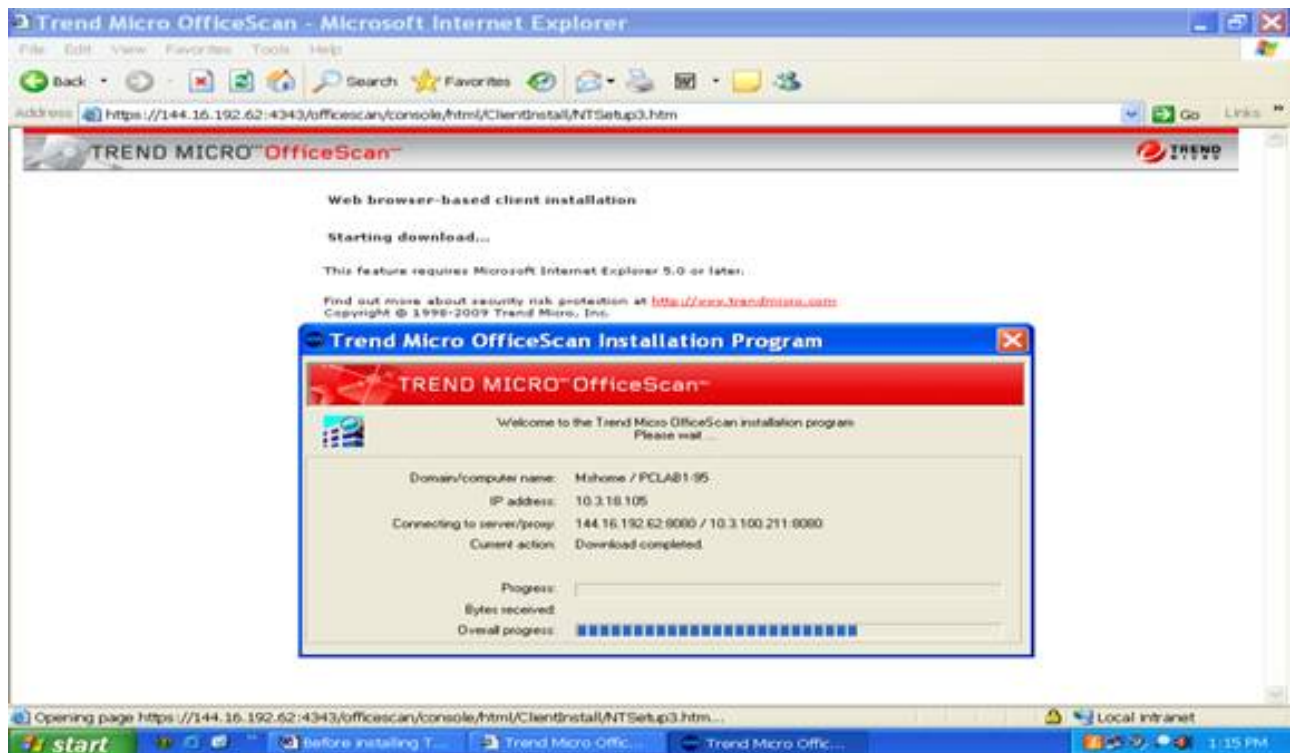

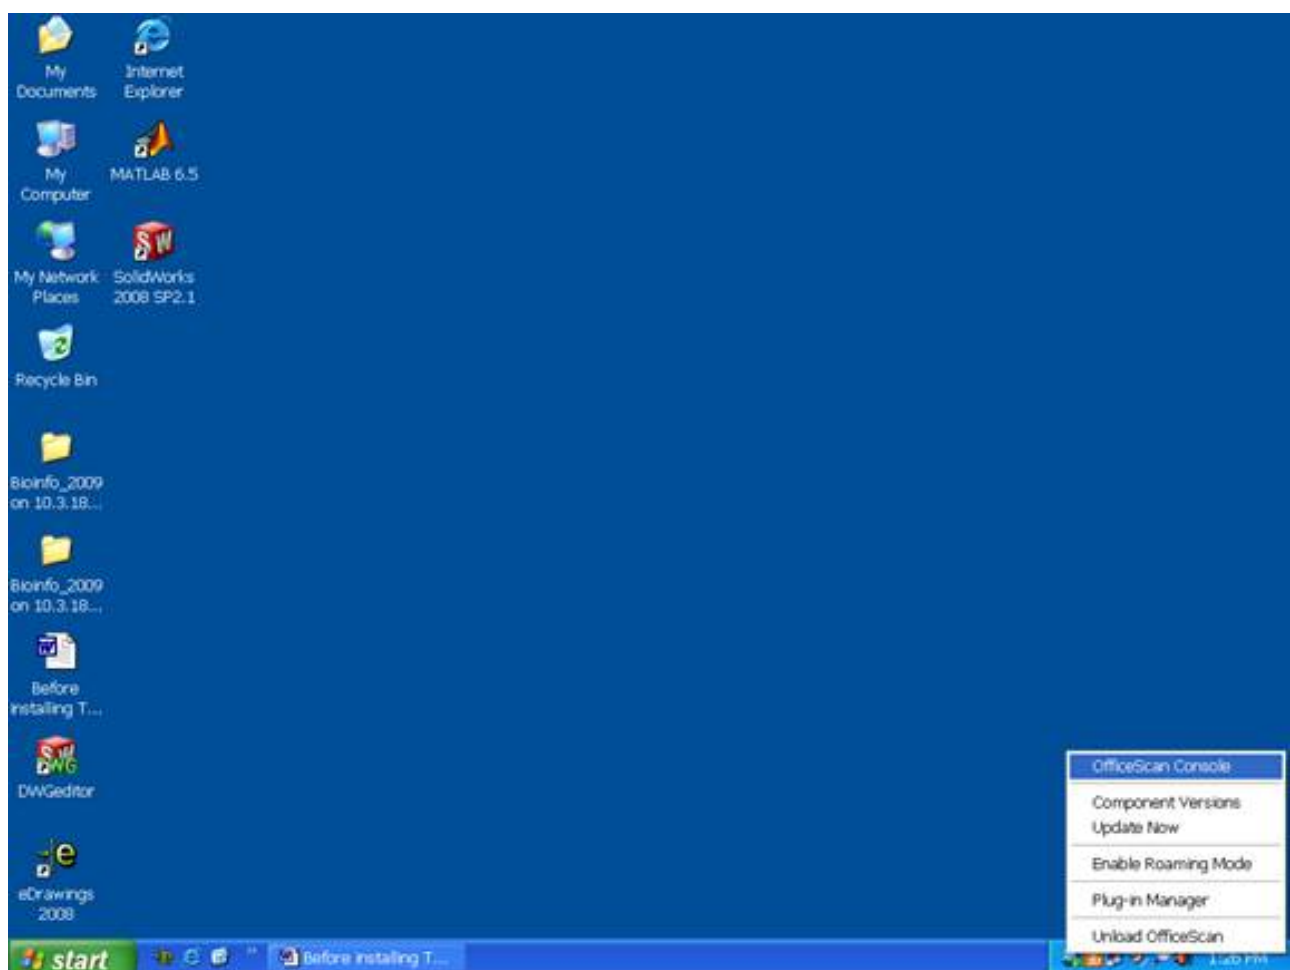

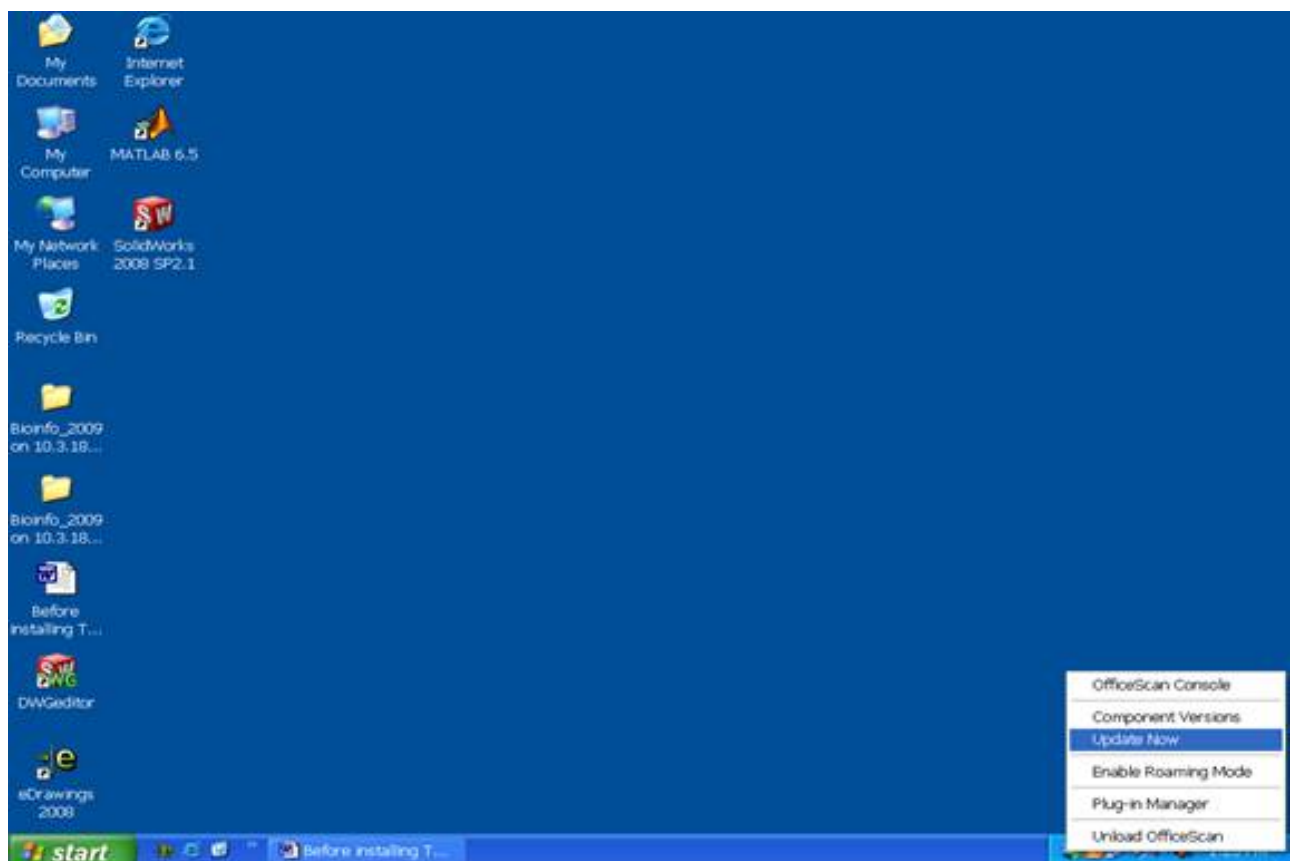

Step 7: Click "Finish".

Step 8: You may restart the PC/Laptop now.

Step 9: Installation of Trend Micro ApexOne Client Antivirus is finished.
