

# MATLAB Installation Guide for Linux

Linux Installation Manual  
Central Computer & Informatics Centre (CIC)  
Indian Institute of Technology Kharagpur

This document provides step-by-step instructions for installing **MATLAB** on Linux systems using the CIC Software Repository. The procedure is generally applicable across MATLAB versions, subject to the version available in the repository.

**Important Note:** For the latest version of MATLAB, check the CIC Software Repository at <http://swrepo.iitkgp.ac.in>. For the Installation Key and Network License file, visit <http://swrepo.iitkgp.ac.in/MatlabLicence/downloadfile.html>.

## System Requirements

For MATLAB system requirements, refer to:

<https://www.mathworks.com/support/requirements/matlab-system-requirements.html>

## Installation Procedure

*Step 1: Open CIC Software Repository website in a browser to download MATLAB: <http://swrepo.iitkgp.ac.in>.*

*Step 2: Go to the folder Matlab2022A. The MATLAB installation procedure is generally same for all versions.*

*Step 3: Open the Linux folder.*

*Step 4: Download the Linux ISO file to your Downloads directory.*

*Step 5: Right-click the downloaded ISO file and choose Open With Disk Image Mounter. If this option does not appear, choose it from Open With Other Application.*

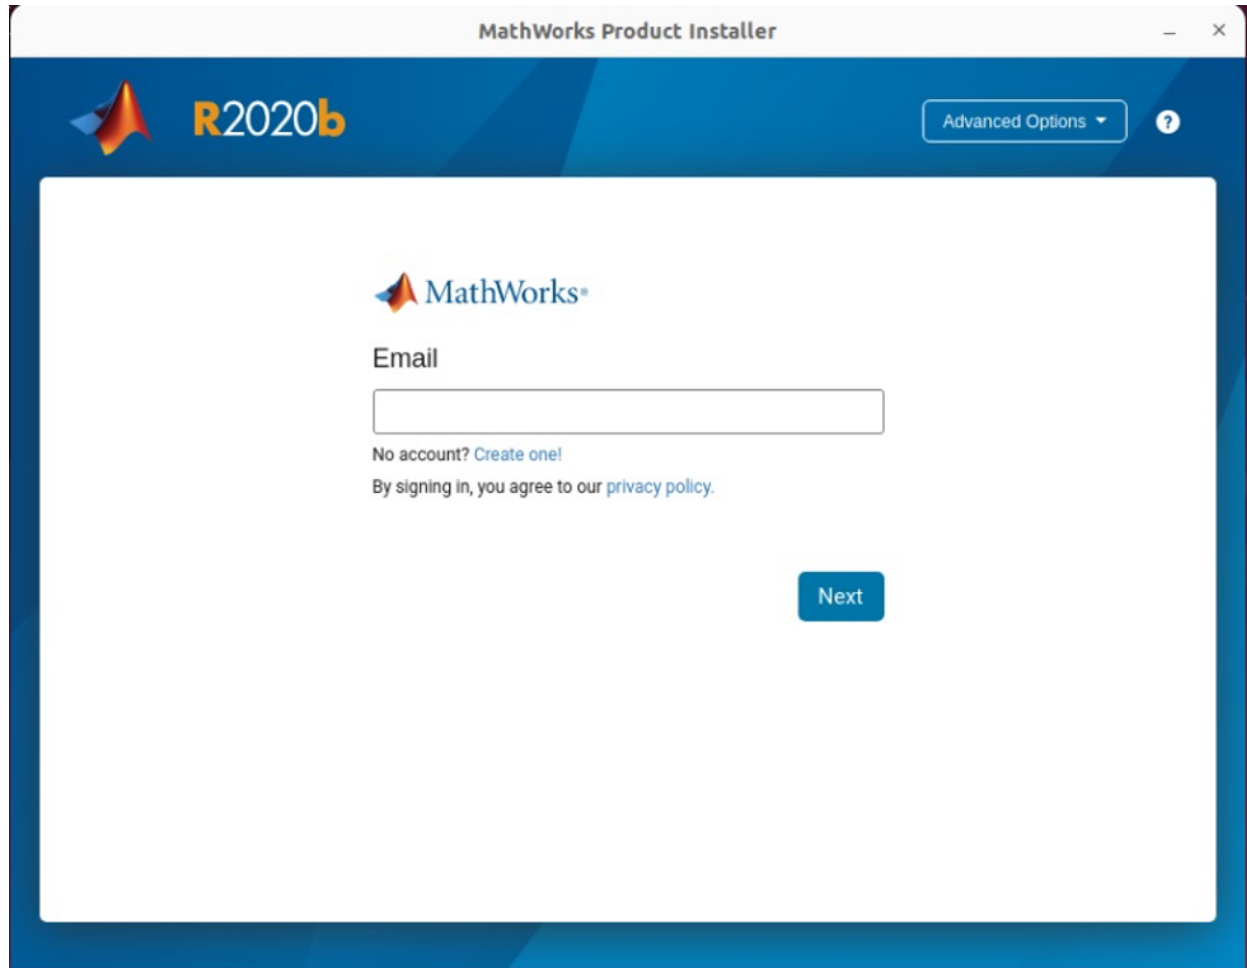

*Step 6: Open a Terminal and change directory into the mounted MATLAB directory.*

```
$ cd /media/{username}/MATHWORKS_R2022A
```

**Step 7: Execute the installation command as sudo user. Type your system password if prompted, then press Enter.**

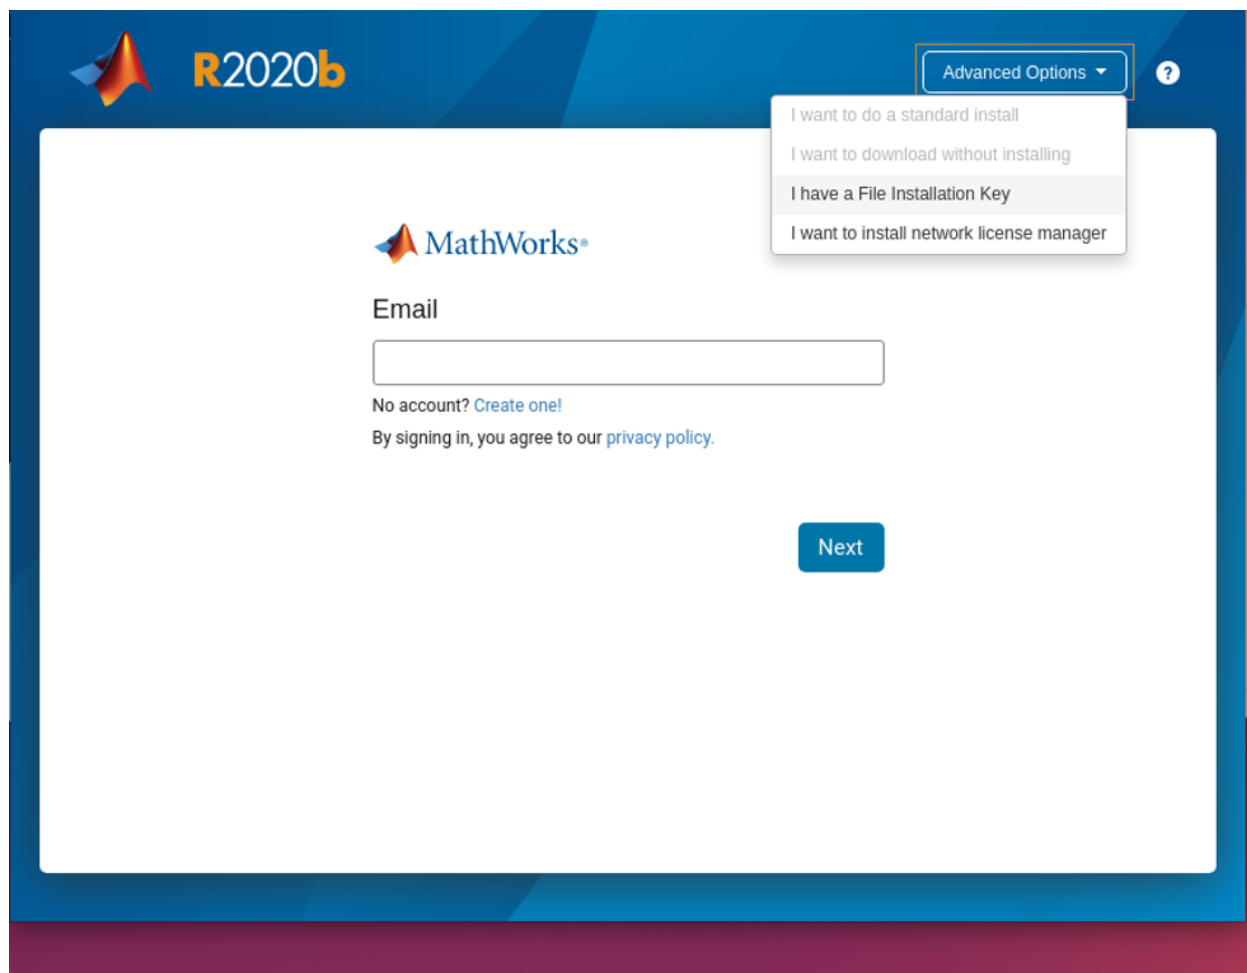

```
$ sudo ./install
```

**Step 8: The installation process will start.**

***Step 17: After installation is complete, close the installer window.***

Screenshot 12

**Step 18: To open MATLAB desktop, open a terminal and run the MATLAB command.**

```
$ matlab
```

## Post-Installation Notes

Except the license manager, other listed products may be installed as required. Proper network connectivity is necessary because MATLAB contacts the license manager during startup. If the license manager cannot be reached, MATLAB may not work.

**In case of any trouble, please contact CIC.**
